MY DEAR MR. SECRETARY:

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 205]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.544 *Orange-Regulation 205—(a.) Findings.* (1) Pursuant to the market-

ing agreement, as amended, and Order No. 33, as amended (7 CFR, Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the *FEDERAL REGISTER* (60 Stat 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 26, 1951. Shipments of oranges, grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since September 15, 1951, and will so continue until November 26, 1951; the recommendation and supporting information for continued regulation subsequent to November 25 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 20; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are

S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the

period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 20, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 25, 1951, and ending at 12:01 a. m., P. s. t., December 2, 1951, is hereby fixed as follows:

- (i) District 1: 20 carloads;
- (ii) District 2: 228 carloads;
- (iii) District 3: 12 carloads.

(2) The prorated base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorated base schedule which is attached to Lemon Regulation No. 409 (16 F. R. 11669), and made a part hereof by this reference.

(3) As used in this section, "handler," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

This part of the amendment shall become effective as of November 15, 1951.

2. Section 373.1 *Export licensing general policy*, paragraph (h) *Commodities subject to this export licensing policy*, subparagraph (2) is amended by deleting therefrom the following entry:

Wool rags, woven and knit: Schedule B No. 362200.

This part of the amendment shall become effective as of November 15, 1951.

3. Section 373.25 *Special provisions for wool rags, waste, and yarns* is amended to read as follows:

§ 373.25 *Special provisions for wool waste and wool yarns*—(a) *Wool waste, journal box packing.* Wool waste, for journal box packing, Schedule B No.

362600, will be licensed only in limited quantities where needed for current maintenance, repair, and operation of railway rolling stock, primarily in foreign countries which have depended historically on United States sources for such requirements. Applications for licenses to export such wool waste must clearly indicate that the wool waste is for journal box packing and must be accompanied by a statement as to urgency of need.

(b) *Wool yarns.* Wool yarns, Schedule B No. 363300, will be licensed for export for small shipments of yarn, primarily hand knitting yarn, to countries normally obtaining such yarns from the United States.

This part of the amendment shall become effective as of November 15, 1951.

4. Section 374.3 *SP (Special) Project licenses*, paragraph (e) *Commodity requirements for petroleum projects and programs* is amended in the following particular: Subparagraph (1) *Construction projects over \$10,000*, is amended to read as follows:

(1) *Construction projects over \$10,000.* Form PAD-26A, in quintuplicate, must accompany each license application, Form IT-419, involving construction operations over \$10,000. Form PAD-26A shall set forth the total requirements of the materials specified therein by calendar quarters for the complete project for which application is being made. This form need be filed only once, except to effect changes in delivery dates or quantity of material required. In addition, Form IT-419 must be accompanied by Form IT-824 in quintuplicate setting forth the requirements of materials to be used in the construction operation which do not appear on Form PAD-26A but which must be licensed for export. Applicants filing Form PAD-26A must list in Section IV-A of Form PAD-26A all requirements of manufactured machinery or equipment under specific controls and must list in Section IV-B all other machinery and equipment requirements, including those items with a value under \$3,000. try of ultimate destination, optional ports of discharge even when more than one foreign country is involved.

Immediately after the United States shipper ascertains the identity of his customer in one of these foreign destinations, he should file a Correction Form 7403 with the collector of customs at the port of exit where the original shipper's export declaration was filed, specifying the name and address of the buyer to whom delivery is made and the name of the country in which such buyer takes delivery for distribution.

In no event does the aforementioned procedure apply to any shipment destined to a Subgroup A country, Hong Kong or Macao, whether directly or in transit to such areas. This interpretation does not, in any way, change or modify the provisions of § 384.5 relating to the export of fresh fruits and vegetables to Hong Kong or Macao.

Amendment of the export license is required in respect to intermediate consignee, as provided in §§ 373.13 and 380.2. (f) of this subchapter.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Modified cease and desist order, Continental Radio Tube Company et al., Docket 5725, October 5, 1951]

In the Matter of Continental Radio Tube Company, a corporation; and P. D. Jackson, Jacob L. Gaber, Erwin F. Rempert, and Martin Gaber, Individually and as Officers of Continental Radio Tube Company

Pursuant to the provisions of the Federal Trade Commission Act the Federal Trade Commission, on December 20, 1949, issued and subsequently served its complaint in this proceeding upon the respondents, Continental Corporation (incorrectly designated in the complaint as Continental Radio Tube Company), a corporation, and P. D. Jackson, Jacob L. Gaber, Erwin F. Rempert, and Martin Gaber, individually and as officers of said corporation, charging them with the use of unfair and deceptive acts and practices in commerce, in violation of the provisions of said act. After respondents filed their answer to the complaint, a stipulation was entered into

whereby it was stipulated and agreed that a statement of facts signed and executed by counsel for the respondents and counsel supporting the complaint may be taken as the facts in this proceeding and in lieu of testimony in support of and in opposition to the charges stated in the complaint, and that the said statement of facts may serve as the basis for findings as to the facts and conclusion based thereon and order disposing of the proceeding. Counsel having waived presentation of proposed findings and conclusions and oral argument, the trial examiner thereafter filed his initial decision, which, on April 19, 1951, became the decision of the Commission.

Thereafter the Commission, acting upon its own motion, reconsidered its aforesaid decision and, if appearing that said decision is deficient in certain respects and that the public interest may require that this proceeding be reopened and the findings as to the facts and order modified, issued its rule to show cause why the public interest does not require that this proceeding be reopened and the findings as to the facts and order modified in the respects indicated in said rule to show cause. The respondents, in answer to said rule to show cause, objected to the last clause in paragraph 1 of the proposed modified order, contending that the order with said clause included is indefinite and uncertain; that it seeks to adjudicate as violations undefined future actions of the respondents; and that it goes beyond the facts found by the Commission.

Respondents' objections to the proposed modified order are without merit. The complaint in this proceeding was aimed at, among other things, the respondents' practice of incorrectly identifying the radio tubes they sell. An order limited in its application to the specific ways in which their tubes have been incorrectly identified in the past would not be adequate to prohibit a continuation or resumption of the practice by some other means.

The Commission having duly considered the matter and being of the opinion that the public interest requires that this proceeding be reopened and the findings as to the facts and order to cease and desist modified:

It is ordered, That this proceeding be, and it hereby is, reopened for the purpose of modifying the findings as to the facts and order to cease and desist previously issued herein.

It is further ordered, That said findings as to the facts<sup>1</sup> and order to cease and desist be, and they hereby are, modified to read as follows:

It is ordered, That the respondent Continental Corporation, a corporation, trading under its own or under any other name, its officers, and the respondents P. D. Jackson, Jacob L. Gaber, Erwin F. Rempert, and Martin Gaber, individually, and their respective agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of radio tubes in

<sup>1</sup> Findings as to the facts filed as part of the original document.

commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Removing any identification number or symbol placed on radio tubes by the manufacturer thereof or others, and substituting therefor any other number or symbol, or otherwise incorrectly identifying such radio tubes.

2. Removing the service number or symbol from war surplus radio tubes and substituting therefor any other number or symbol, or otherwise representing that such war surplus radio tubes are current commercial tubes.

3. Representing that the respondents have been licensed by Radio Corporation of America to make or distribute radio tubes, or for any other purpose.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

## TITLE 29—LABOR

### Subtitle A—Office of the Secretary of Labor

[Order 5]

#### PART 4—CHILD LABOR REGULATIONS, ORDERS AND STATEMENTS OF INTERPRETATIONS

##### OCCUPATIONS PARTICULARLY HAZARDOUS FOR EMPLOYMENT OF MINORS; OPERATION OF POWER-DRIVEN WOODWORKING MACHINES

On September 27, 1951, notice was published in the FEDERAL REGISTER (16 F. R. 9821) that the Secretary of Labor proposed to amend § 4.55 (c) in the manner hereinafter set forth. The notice pointed out that administrative experience has demonstrated that the exemption language adopted in Order No. 8 (§ 4.59 (c)) affords a more practical basis for exemption than the existing language in § 4.55 (c). The purpose of this amendment is to conform the exemption language of the two orders. Interested persons were given 30 days within which to submit data, views, or arguments in support of or in opposition to the proposal. The notice period has expired and no objection to the proposed amendment has been filed with the Secretary of Labor.

Accordingly, pursuant to the authority vested in me by section 3 (1) of the Fair Labor Standards Act, as amended (52 Stat. 1061; 29 U. S. C. 203) and Reorganization Plan No. 2 of 1946 adopted pursuant to the Reorganization Act of 1945 (59 Stat. 613) and in accordance with the Procedure Governing Determinations of Hazardous Occupations (29 CFR, Part 4, Subpart D), § 4.55 (c) is amended to read as follows:

§ 4.55 *Occupations involved in the operation of power-driven wood-working machines.* \* \* \*

(c) *Exemptions.* (1) This section shall not apply to the employment of apprentices in the occupations herein declared particularly hazardous: *Provided*, That (i) the apprentice is employed as a pattern maker, cabinet maker, airplane-model maker, ship joiner, or mold-loftsman, (ii) the work of the apprentice in the occupations herein declared hazardous is incidental to the apprentice training, is intermittent and for short periods of time, and is under the direct and close supervision of a journeyman as a necessary part of such apprentice training, and (iii) the apprentice is registered by the Bureau of Apprenticeship of the United States Department of Labor as employed in accordance with the standards established by that Bureau, or is registered by a State agency as employed in accordance with the standards of the State apprenticeship agency recognized by the Bureau of Apprenticeship, or is employed under a written apprenticeship agreement under conditions which substantially conform to such Federal or State standards as determined by the Secretary of Labor.

(2) In addition to the exemption for apprentices provided in subparagraph (1) of this paragraph, upon application

to the Secretary of Labor, an exemption may be granted for minors employed under a written agreement for organized training which provides for at least 4,000 hours of employment as a pattern maker, cabinet maker, airplane-model maker, ship joiner, or mold-loftsman and under conditions which the Secretary of Labor finds to conform substantially to Federal apprenticeship standards, *Provided*, That the work of the minor in the occupations herein declared hazardous is incidental to his training, is intermittent and for short periods of time, and is under the direct and close supervision of a journeyman.

(Sec. 3, 52 Stat. 1061, as amended; 29 U. S. C. 203)

*Effective date.* This amendment shall become effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 10th day of November 1951.

MAURICE J. TOBIN,  
Secretary of Labor.

## TITLE 32A—NATIONAL DEFENSE, APPENDIX

### Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 82, Correction]

#### CPR 82—CEILING PRICES FOR FROZEN FRUITS AND BERRIES OF THE 1951 PACK

##### CORRECTION

An error appears in CPR 82, Statement of Considerations. The first sentence of the second paragraph under the side heading *Cost increases for raw material* now reads, "The determination by the Secretary is made in the form of individual processor's increased raw material costs, either in dollars and cents or percentages between 1948 and 1951".

There is no provision in this regulation for allowable raw material cost increases on a percentage basis. Accordingly, the sentence is corrected to read as follows: "The determination by the Secretary is made in the form of individual processor's increased raw material costs, in dollars and cents between 1948 and 1951".

[Ceiling Price Regulation 92, Correction]

#### CPR 92—CEILING PRICES OF LAMB, YEARLING, AND MUTTON PRODUCTS SOLD AT WHOLESALE

##### Correction

CPR 92, issued November 8, 1951 (16 F. R. 11434), contain misprints in the following sections: Section 20, Schedule I and section 24, Schedule V. Accordingly, these sections are corrected as follows:

1. Section 20, Schedule I is corrected by substituting the word "Yearling" for "Yearlings" as the title to the second table in that schedule.

2. Section 24, Schedule V is corrected by eliminating section 46 from the list of additions which may not be added to the prices set forth in that schedule.

[General Ceiling Price Regulation, Supplementary Regulation 73, Correction]

**GCPR, SR 73—RAIL FREIGHT RATE INCREASES FOR GRAIN, GRAIN PRODUCTS, GRAIN BY-PRODUCTS AND ARTICLES TAKING SAME RAIL FREIGHT RATE**

**CORRECTION**

In section 2 (c) of SR 73 to the GCPR, issued October 16, 1951 (16 F. R. 10600), the words "soybean oil meal" were inadvertently used at one point when it was intended to refer to soybean oil cake. Accordingly, the paragraph is corrected to read as follows:

(c) *Products not covered.* This supplementary regulation does not apply to you if you are a processor and you sell soybean chips, soybean oil cake, soybean flakes, 41 or 44 percent soybean oil meal.

**Chapter VI—National Production Authority, Department of Commerce**

[CMP Regulation No. 1 as amended Nov. 23, 1951]

**CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN**

This amended CMP regulation is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this regulation as amended, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the regulation affects many different industries. However, there was consultation with industry representatives prior to the original issuance of this regulation on May 3, 1951.

This amendment affects CMP Regulation No. 1 as follows: The word "General" in the title is deleted; paragraphs (c), (h), and (k) of section 2 are amended; paragraphs (c) and (d) of section 3 are amended; paragraph (b) of section 10 is amended; paragraph (c) of section 11 is amended; paragraph (e) of section 12 is amended; paragraph (b) of section 15 is amended; the words "within the same plant or operating unit" are deleted from paragraph (b) of section 17; paragraphs (d) and (e) of section 17 are amended; paragraph (b) of section 18 is amended; paragraphs (b) and (c) of section 19 are amended; paragraphs (b), (c), and (d) of section 20 are amended; paragraph (f) of section 20 is deleted; paragraph (g) of section 20 is amended and redesignated paragraph (f); paragraph (h) of section 20 is redesignated paragraph (g); paragraph (i) of section 20 is deleted; paragraph (j) of section 20 is redesignated paragraph (h); paragraph (k) of section 20 is redesignated paragraph (i); para-

graph (c) of section 21 is amended; paragraph (b) of section 24 is amended; Schedule I is amended and redesignated Schedule I (Revised); Schedule III and Schedule IV are deleted and Schedule III (Revised) and Schedule IV (Revised) are substituted therefor.

This amendment incorporates the provisions of the separate previously issued Amendments 1 through 4 to this regulation which are accordingly superseded. This amendment does not affect the status of the separate previously issued Directions 1, 2, 3, 4, 6, 7, and 8 to this regulation which remain in full force and effect; however, Directions 1 and 4 are amended concurrently with this amendment and Direction 5 is revoked concurrently.

**EXPLANATORY PROVISIONS**

**SECTION 1. What this regulation does.** The purpose of this regulation is to define rights and obligations under the

Controlled Materials Plan. It explains how production schedules are authorized for manufacturing operations and how materials are obtained to complete such production schedules. This regulation and other CMP regulations to be issued from time to time make effective the "Controlled Materials Plan," a general description of which was issued by the National Production Authority, for informational purposes only, on April 13, 1951. In case of any inconsistency between such announcement, or any other descriptive literature which may be issued from time to time, and any CMP regulation, the provisions of the latter shall govern. Other CMP regulations cover, or will cover, inventory controls; preference status of delivery orders; deliveries of controlled materials by distributors; maintenance, repair, and operating supplies; construction; and additional matters. This regulation will also be supplemented from time to time by the issuance of procedures, forms, interpretations, directions, and instructions.

**Sec. 2. Definitions.** As used in this regulation and any other CMP regulation (unless otherwise indicated):

(g) "Prime consumer" means any person who receives an allotment of controlled material from a Claimant Agency or an Industry Division.

(h) "Secondary consumer" means any person who receives an allotment of controlled material from a person other than a Claimant Agency, an Industry Division, or the Requirements Committee of the Defense Production Administration.

(i) "Allotment" means (1) an authorization by the Requirements Committee of the Defense Production Administration, of the amount of controlled materials which a Claimant Agency may receive and/or allot during a specified

period, or (2) an authorization by the Requirements Committee of the Defense Production Administration, of the amount of controlled materials which an Industry Division may allot during a specified period, or (3) an authorization by a Claimant Agency or an Industry Division, of the amount of controlled materials which may be received and/or allotted by one of its prime consumers during a specified period, or (4) an authorization by a prime or secondary consumer, of the amount of controlled materials which may be received and/or allotted by one of its secondary consumers during a specified period.

(j) "Class A product" means any product which is not a Class B product (as defined in paragraph (k) of this section), and which contains any controlled material, fabricated or assembled beyond the forms and shapes specified in Schedule I of this regulation, other than any controlled material which may be contained in Class B products incorporated in it.

(k) "Class B product" means any product designated as such in the "Official CMP Class B Product List" issued by NPA, as the same may be modified from time to time, and which contains any controlled material other than any controlled material which may be contained in other Class B products incorporated in it.

(p) "Delivery order" means any purchase order, contract, shipping, or other instruction calling for delivery of any material or product on a particular date or dates or within specified periods of time.

(q) "Authorized controlled material order" means any delivery order for any controlled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment as provided in section 19 of this regulation or which is specifically designated to be such an order by any regulation or order of NPA.

**SEC. 3. General production schedule and allotment procedure.** (a) Each Claimant Agency or Industry Division shall authorize production schedules of prime consumers pursuant to authorized programs. Each prime consumer who has an authorized production schedule

shall, pursuant thereto, authorize production schedules of secondary consumers producing Class A products for it; and each secondary consumer who has an authorized production schedule shall, pursuant thereto, authorize production schedules of secondary consumers producing Class A products for it.

(b) Each Claimant Agency or Industry Division shall make allotments to prime consumers, for the purpose of fulfilling related authorized production schedules, pursuant to allotments which it has received. Each prime consumer who has received an allotment shall, pursuant thereto, make allotments to secondary consumers producing Class A products for it, to fulfill related authorized production schedules; and each secondary consumer who has received an allotment shall, pursuant thereto, make allotments to secondary consumers producing Class A products for it, to fulfill related authorized production schedules.

(c) Except where otherwise provided by NPA, no person shall produce a Class A or a Class B product unless he has received an authorized production schedule for such production. No person who has received an authorized production schedule shall produce more than the quantity of the particular product or products provided for in such authorized production schedule. No such person shall acquire controlled materials or products and materials other than controlled materials for fulfillment of such authorized production schedule except by use of the related allotment (or charge against the related allotment) and by use of the related DO rating. If such a person obtains controlled material without the use of an authorized controlled material order, for example, the purchase of controlled material from a foreign supplier or from a domestic supplier who is not a controlled materials producer or a controlled materials distributor (as defined in CMP Regulation No. 4), he must charge the quantity of such controlled material against his allotment.

(d) Nothing in this regulation shall be interpreted to prohibit the production of any product, other than a Class A or a Class B product: *Provided, however*, That such production must comply with the provisions and limitations of all applicable regulations and orders of NPA.

#### SEC. 4. Statements of requirements.

(a) The basis for an allotment to a consumer shall be his actual requirements for controlled materials in connection with the fulfillment of an authorized production schedule, after taking inventories into account to the extent required by CMP Regulation No. 2. A statement of requirements is to be furnished only when requested. Such statement is ordinarily submitted as an application for allotment or a bill of materials.

(b) An application for allotment includes only (1) the quantities of controlled materials required by the submitting consumer for his own production, and (2) the quantities of controlled materials required by his secondary consumers supplying Class A products to him for incorporation in his product.

(c) A bill of materials is a statement of the total amounts of materials (including controlled materials) required for physical incorporation in one unit or a specified number of units of a given product.

(d) When a consumer who has furnished a bill of materials or other statement of requirements ascertains that he has substantially overstated his requirements or those of his secondary consumers for any material or product, he shall report such error immediately to the person to whom the statement of requirements was furnished.

(e) If any consumer receives any statement of requirements which he knows or has reason to believe to be substantially excessive, with respect to controlled materials, he shall withhold any allotment based thereon in an amount sufficient to correct such excess and shall report the facts immediately to the appropriate Claimant Agency or Industry Division.

#### SEC. 5. Applications for authorized production schedules and allotments.

(a) Production schedules may be authorized and related allotments made on the basis of information furnished by applications on Form CMP-4A and Form CMP-4B.

(b) Any producer of Class A products, upon the request of a Claimant Agency or of a consumer for whom he produces Class A products, shall furnish to such Claimant Agency or consumer, the information called for in Form CMP-4A. Such information shall be submitted on Form CMP-4A or in such other manner as may be prescribed.

(c) Any producer of Class B products which are designated as Class B products for which Form CMP-4B applications are required, in the "Official CMP Class B Product List" issued by NPA, as the same may be modified from time to time, shall furnish the information called for in Form CMP-4B by submitting such form to the appropriate Industry Division or Claimant Agency (as indicated in such list). NPA may request any producer of a Class B product not so designated to furnish such information on such form.

(d) Any producer of controlled materials may apply for an allotment as provided in section 21 of this regulation.

#### AUTHORIZED PRODUCTION SCHEDULES

**SEC. 6. How production schedules are authorized.** (a) A production schedule for each prime consumer producing a Class A product pursuant to an authorized program will be authorized by the appropriate Claimant Agency on such form as may be prescribed. A Claimant Agency may, in particular cases, authorize a production schedule through an Industry Division.

(b) A production schedule for each secondary consumer producing a Class A product shall be authorized by the consumer for whom such Class A product is to be produced, pursuant to an authorized production schedule, on such form as may be prescribed. A consumer having several authorized pro-

duction schedules bearing the same allotment number may, pursuant thereto, authorize a single production schedule for a secondary consumer.

(c) A production schedule for each consumer producing a Class B product pursuant to an authorized program will be authorized by the appropriate Industry Division or Claimant Agency on such form as may be prescribed.

(d) A consumer receiving allotments from several persons shall obtain separate authorized production schedules from each.

(e) Except where otherwise specifically provided by NPA, no person shall authorize a production schedule unless at the same time he makes an allotment as provided in section 10 of this regulation, and no person shall make an allotment unless at the same time he authorizes a related production schedule as provided in this section.

(f) When the production schedule of a consumer is authorized and a related allotment is made to him, a DO rating shall be assigned or applied to such schedule by the person authorizing the production schedule, for use in accordance with the provisions of CMP Regulation No. 3.

**SEC. 7. Reconciliation of conflicting schedules.** In any case where, for any reason, a manufacturer of Class A or Class B products is unable to fulfill conflicting authorized production schedules which he has accepted from different persons, he shall, if the conflict involves only schedules relating to a single Claimant Agency, report immediately to that Claimant Agency for instructions. In all other cases involving conflicting authorized production schedules he shall report immediately to the appropriate Industry Division or Industry Divisions for instructions.

**SEC. 8. Rejection of schedules in excess of capacity.** A prime or secondary consumer shall reject an authorized production schedule for a Class A or Class B product to be manufactured by him which calls for delivery or deliveries after June 30, 1951, if he does not expect to be able to fulfill the same by the specified delivery date or dates. If the person whose order is rejected is unable to find another manufacturer who will accept it, he shall report the facts to the appropriate Claimant Agency or Industry Division. NPA may from time to time issue directives requiring individual manufacturers to reschedule or rearrange their production and/or delivery schedules.

**SEC. 9. Meeting authorized production schedules.** (a) Each consumer who has accepted an authorized production schedule shall fulfill the same unless prevented by circumstances beyond his control. In the event he cannot fulfill such schedule on the specified delivery date or dates, he shall promptly notify the person from whom he received it stating the reasons therefor.

(b) No consumer who has accepted an authorized production schedule shall exceed such schedule in any quarter with the use of the related allotment and DO rating, except that (1) an authorized production schedule may be exceeded in

any quarter to the extent necessary to make up for a failure to meet such schedule in any prior quarter, (2) production authorized for any quarter may be completed at any time after the fifteenth of the month preceding such quarter and, (3) where a delivery order calls for deliveries, in successive months, of Class A products in quantities which are less than the minimum practicable production quantity, and compliance with monthly delivery dates would result in substantial interruption of production and consequent interference with production to fill other delivery orders, the consumer may produce (and his customer may order and accept) in the first or a subsequent month the minimum practicable quantity which may be made without such interference.

#### ALLOTMENTS AND DELIVERY ORDERS FOR CONTROLLED MATERIALS

##### SEC. 10. How allotments are made.

(a) Each Claimant Agency, Industry Division, or consumer authorizing a production schedule as provided in section 6 of this regulation shall concurrently make a related allotment, pursuant to allotments which it has received, to the consumer whose production schedule has been authorized, on such form as may be prescribed.

(b) The allotment shall specify the quantities and the kinds of controlled materials needed for delivery in specified calendar quarters to complete the related authorized production schedule. Allotments shall be made in terms of (1) carbon steel (including wrought iron), (2) alloy steel (except stainless steel), (3) stainless steel, (4) copper and copper-base alloy brass mill products, (5) copper wire mill products, (6) copper and copper-base alloy foundry products and powder, and (7) aluminum, in each case without further breakdown, except where a further breakdown is made by the Requirements Committee of the Defense Production Administration or by NPA.

(c) The allotment shall be identified by an allotment number as provided in section 11 of this regulation.

(d) Advance allotments by Claimant Agencies or Industry Divisions to prime consumers may be made within such limits as may be specified by the Requirements Committee of the Defense Production Administration. Prime consumers receiving such advance allotments shall, in turn, make advance allotments to their secondary consumers, and secondary consumers shall make advance allotments, in the same manner as in the case of regular allotments, but no consumer shall make any allotment before receiving his own allotment.

(e) A Claimant Agency, Industry Division, or consumer may make allotments only in the same kinds of controlled materials in which it has received its allotment.

**SEC. 11. Designation and use of allotment numbers.** (a) Allotments shall be identified by an allotment number consisting of a Claimant Agency letter symbol and one digit designating the authorized program of such Claimant Agency. In cases where a Claimant Agency is not

involved, the appropriate symbol designated by any NPA regulation or order as a CMP allotment symbol shall be used. For example, in the case of maintenance, repair, and operating supplies, the symbol MRO shall be used as provided in CMP Regulation No. 5.

(b) Authorized controlled material orders shall show the related allotment number and the calendar quarter for which the allotment is valid. For example, a delivery order for controlled materials placed pursuant to an allotment identified by allotment number K-2 which is valid for the fourth quarter of 1951 shall be designated as follows: K-2-4Q51. The date or dates on which delivery is required must also be specified on such delivery order.

(c) Delivery orders for products and materials other than controlled materials required for completion of an authorized production schedule shall show the DO rating and the related allotment number; for example, DO-K-2. The date or dates on which delivery is required must also be specified on such delivery orders. Such date or dates need not be during the calendar quarter for which such production schedule is authorized and for which the related allotment is valid: *Provided, however,* That the DO rating may be used only to acquire production materials in the minimum practicable amounts required, and on a date or dates no earlier than required, to fulfill the related authorized production schedule.

##### SEC. 12. Allotments by consumers.

(a) Each prime consumer receiving an allotment may use that portion of the allotment which he requires to obtain controlled materials as such for his authorized production schedule, and shall allot the remainder to his secondary consumers producing Class A products for him to cover their requirements for controlled materials for related authorized production schedules. Allotments by secondary consumers to secondary consumers supplying them shall be made in the same fashion. A secondary consumer producing Class A products for several consumers shall obtain separate allotments from each.

(b) No consumer shall make any allotment in an amount which exceeds the related allotment received by him, after deducting all other allotments made by him and all orders for controlled materials placed by him pursuant to his related allotment.

(c) No consumer shall make any allotment in excess of the amount required, to the best of his knowledge and belief, to fulfill the related authorized production schedule of the secondary consumer to whom the allotment is made (including the schedules of any secondary consumers supplying the latter).

(d) Allotments for production of Class B products shall only be made by appropriate Industry Divisions or by appropriate Claimant Agencies as specified in the "Official CMP Class B Product List," and no consumer shall accept any allotment from any other person for the production of Class B products.

(e) No consumer who has received his allotment for an authorized produc-

tion schedule shall place any delivery order for any Class A product required to fulfill said schedule, unless concurrently therewith, he makes an allotment to the person with whom the order is placed, in the amount required by such person to fill said order; *Provided, however*, That if he purchases a Class A product from a distributor under the conditions specified in section 15 of this regulation or from a foreign supplier, he shall make no allotment but must deduct the appropriate amount from his own allotment balance.

(f) A consumer may make an allotment to his secondary consumer on such form (including Form CMP-5 set forth in Schedule II of this regulation) as may be prescribed for the purpose. Allotments may be made by telegraphing or telephoning the information required by the appropriate form and confirming the same with such form, within 15 days.

**SEC. 13. How to cancel or reduce allotments.** A person who has made an allotment may cancel or reduce the same by notice in writing to the person to whom it was made. A person who has received an allotment may cancel or reduce the same by making an appropriate notation thereon and notifying the person from whom he received it. In either case, if an allotment received by a person is cancelled, he must cancel all allotments which he has made, and all authorized controlled material orders which he has placed, on the basis of the allotment; and, if an allotment received by a person is reduced, he must cancel or reduce allotments which he has made, or authorized controlled material orders which he has placed, to the extent that the same exceed his allotment as reduced. If and to the extent that cancellation or reduction is impracticable because of shipments already made to him pursuant to such allotment, he may use or dispose of controlled materials or Class A products which he gets with such allotment in the manner provided in section 17 of this regulation.

**SEC. 14. Transfer of allotments.** (a) No consumer shall transfer or assign any allotment (as distinct from making an allotment) in any way unless: (1) delivery orders for Class A products placed with him, in connection with which the allotment was made to him, have been transferred or assigned to another consumer; (2) the authorized production schedules of the respective consumers have been duly adjusted; and (3) the transfer or assignment is approved in writing by the person who made the allotment.

(b) Transfers or assignments of allotments may be made without complying with paragraph (a) of this section in connection with the transfer or assignment of a business as a going concern where the transferee continues to operate substantially the same business in the same plant. The transferee may use the allotment and ratings of the transferor but the transferee must notify NPA of the details of the transaction, giving the names of the persons involved and furnishing one extra copy of such noti-

fication for each authorized production schedule that he has received.

**SEC. 15. Special provisions regarding manufacturers and distributors of Class A products.** (a) For the purposes of this section "distributor" means any person engaged in the business of buying and taking physical delivery of Class A products which he does not manufacture and selling the same, for his own account, but only to the extent that he is so engaged.

(b) If a distributor buys and sells Class A products, he shall do so without making or receiving allotments. A manufacturer of Class A products selling them to a distributor shall apply for an allotment for such manufacture from the appropriate Industry Division or Claimant Agency by submitting an application on Form CMP-4B, in the same manner as if they were Class B products. If the manufacturer makes physical delivery directly to a distributor's customer, the latter (unless he is also a distributor) shall make an allotment directly to the manufacturer in the same manner and subject to the same conditions as if the distributor had no part in the transaction.

(c) A manufacturer of Class A products who sells them for use as maintenance, repair, or operating supplies (except items purchased from him by a Claimant Agency and for which he has received an allotment) shall obtain allotments for such manufacture in the manner provided in paragraph (b) of this section. Applications pursuant to said paragraph (b) and this paragraph (c) may be combined in a single Form CMP-4B.

(d) Notwithstanding paragraph (a) of this section, a manufacturer who also sells purchased Class A products to round out his line, which do not represent more than 10 percent of his estimated total sales receipts in a calendar quarter for which he files an application for allotment, shall be deemed the manufacturer of such products and not a distributor for purposes of this section.

**SEC. 16. Alternative procedure for simultaneous allotments.** A prime or secondary consumer who has several secondary consumers in different degrees of remoteness, may, at his option, authorize individual production schedules and make simultaneous direct allotments to all such secondary consumers of all degrees of remoteness. The person who is to make the allotment under this alternative procedure (the originating consumer) may request each supplier of all degrees of remoteness to furnish him directly with information regarding such supplier's requirements for controlled materials, and each such supplier shall comply with such request. If this procedure is followed, each supplier shall include in the information he furnishes to the originating consumer only his own requirements for controlled materials and not those of his suppliers. In no event shall a person who uses this alternative procedure make an allotment of more controlled materials than he has received. All the provisions of

this regulation regarding authorized production schedules and allotments shall apply to the alternative procedure for simultaneous allotments, except as specifically provided in this section.

**SEC. 17. Restrictions on placing authorized controlled material orders, and on use of allotments and materials.** (a) In no event shall a consumer request delivery of any controlled material in a greater amount or on an earlier date than required to fulfill his authorized production schedule, or in an amount so large or on a date so early that receipt of such amount on the requested date would result in his having an inventory of controlled materials in excess of the limitations prescribed by CMP Regulation No. 2 or by any other applicable regulation or order of NPA. If the quantity of any controlled material required by a consumer is less than the minimum mill quantity specified in Schedule IV of this regulation, and is not procurable from a distributor, he may accept delivery of the full minimum shown in such schedule.

(b) No consumer shall use an allotment, or any controlled material or Class A product obtained pursuant to an allotment, for any purpose except: (1) To fulfill the related authorized production schedule, or (2) to fulfill any of his other authorized production schedules for Class A products which bear the same allotment number, or (3) to fulfill any of his other authorized production schedules for Class B products which are in the same Product Class Code as shown in the "Official CMP Class B Product List" issued by NPA, or (4) to replace in inventory, controlled materials or Class A products used to fulfill any of such authorized production schedules, subject to the provisions of CMP Regulation No. 2 or any other applicable regulation or order of NPA. Where an allotment made for one schedule is used in filling another schedule as provided in this paragraph, no charge need be made against the allotment account of the second schedule, but an appropriate record must be made, on the allotment accounts or otherwise, describing the circumstances.

(c) If a consumer's needs for a controlled material or Class A product are reduced before he has ordered or received delivery of them, he must immediately return the allotment as explained in section 18 of this regulation unless he uses the allotment for the purposes permitted in paragraph (b) of this section. If he has already placed authorized controlled material orders or delivery orders for Class A products, he must cancel them. If cancellation of such orders is impracticable because of shipments already made, he may accept delivery of the controlled materials and Class A products, in which case his use of them is covered by paragraph (d) of this section.

(d) If it develops, after a consumer has received delivery of controlled materials or Class A products, that he cannot use them for a purpose permitted under paragraph (b) of this section, he shall not use or dispose of them except

as provided below: (1) He may hold the controlled materials or Class A products in his inventory for use in connection with future authorized production schedules; (2) he may sell or otherwise transfer title to such controlled materials to his original supplier of such controlled materials; (3) he may sell or otherwise transfer title to such controlled materials to a person who places an authorized controlled material order with him, in which event he (the seller) shall not extend the allotment number identifying such order; or (4) he shall request authorization from NPA or the appropriate Claimant Agency as to any other use or disposition of such controlled materials or Class A products.

(e) When a consumer receives instructions from NPA directing the disposition or use of controlled materials or Class A products, he must comply with such instructions. Also, he must comply with any instructions he receives from a Claimant Agency with respect to his use of controlled materials or Class A products which he obtained by use of an allotment from that Claimant Agency, in any program of the same Claimant Agency, or with respect to their sale to any other person for use in a program of the same Claimant Agency, subject always to whatever rights he may have to reimbursement.

(f) A consumer need not segregate inventories of controlled materials or Class A products which he obtained by use of his allotments, even though different allotment numbers are used in ordering them, nor does he have to earmark them for a particular schedule. Although a consumer must charge the appropriate allotment account when placing an authorized controlled material order or making an allotment, he may keep all controlled materials and Class A products received in a common inventory and in withdrawing from inventory he does not have to charge the withdrawal against the allotment account. A consumer who is operating under several authorized production schedules need not maintain separate records of the production obtained from the allotment received for each schedule if the records which he normally keeps show that his use of material for his respective schedules is substantially proportionate to the amounts of material allotted for each, and that his aggregate production of any product does not exceed the aggregate of the production schedules authorized for that product.

**SEC. 18. Adjustments for changes in requirements.** (a) If a consumer's requirements for controlled materials or Class A products needed to fulfill an authorized production schedule are increased after he receives his allotment, he may apply for an additional allotment to the person who made the allotment for that schedule.

(b) If a consumer finds that he has been allotted substantially more than he needs, he must return the excess. As of the first of each month, each consumer must check up on his anticipated requirements for the quarter and determine whether he has been allotted more than he anticipates he needs. If he has,

he must return the excess by the tenth of the month. He need not take a physical inventory for this purpose, but must check up on the effect of known changes in his requirements or errors which he has discovered in his statement of requirements. As of the end of each quarter, he must determine whether he has used his entire allotment by placing authorized controlled material orders or making allotments to his secondary consumers, and, if he has any excess, he must return it by the tenth day after the close of the quarter.

(c) The return of an unneeded allotment must be made to the person from whom the allotment was received on such form as may be prescribed. If it is impracticable to obtain the prescribed form, the return may be made by letter setting forth the facts.

(d) In those cases where it is impracticable for a secondary consumer to return an allotment to the person from whom he received it, he may make the return directly to the appropriate Claimant Agency or Industry Division.

**SEC. 19. How to place orders with controlled materials producers and distributors.** (a) A delivery order placed with a controlled materials producer or a controlled materials distributor (as defined in CMP Regulation No. 4) for controlled material shall be deemed an authorized controlled material order only if (1) it contains an allotment number and the calendar quarter for which the allotment is valid, as provided in section 11 of this regulation, and complies with the provisions of this section, or (2) it is specifically designated as an authorized controlled material order by any regulation or order of NPA.

(b) A consumer who has received an allotment may place an authorized controlled material order with any controlled materials supplier unless otherwise specifically directed. An allotment to a prime consumer may include an instruction to place delivery orders for controlled materials with one or more designated controlled materials suppliers. In such event the consumer shall use the allotment only to obtain controlled materials from the designated controlled materials supplier or suppliers or to make allotments to secondary consumers, designating therein only suppliers named in the allotment received by him. Except as required by the allotment which he has received, no consumer shall impose any such restriction in any allotment made by him.

(c) Every authorized controlled material order must contain a certification in addition to specifying the allotment number, the calendar quarter for which the allotment is valid, and the delivery date or dates. Unless another form of certification is specifically prescribed by an applicable order or regulation of NPA, such certification shall be in the following form:

Certified under CMP Regulation No. 1

and shall be signed as provided in NPA Reg. 2. This certification shall constitute a representation that, subject to the criminal penalties provided for in ap-

plicable United States statutes, the purchaser has received an allotment of controlled material authorizing him, in accordance with the provisions of this regulation, to place such order, and that the amount ordered is within the related allotment received by him, after he has deducted from such allotment all allotments made by him to secondary consumers and all other orders for controlled material placed by him and accepted by suppliers pursuant to the same allotment.

(d) An authorized controlled material order must be in sufficient detail to permit entry on mill schedules and must be received by the controlled materials producer at such time in advance as is specified in Schedule III of this regulation, or at such later time as the controlled materials producer may find it practicable to accept the same, provided that no controlled materials producer shall discriminate between customers in rejecting or accepting late orders.

(e) A delivery order for controlled materials placed by a consumer before he has received his authorized production schedule and allotment, calling for delivery after June 30, 1951, may be converted into an authorized controlled material order, after receipt of such schedule and allotment, either by furnishing a revised copy of the order conforming to the requirements of this section or by furnishing in writing information clearly identifying the order and bearing the certification required by paragraph (c) of this section.

(f) No person shall place an authorized controlled material order unless the amount of controlled material ordered is within the related allotment received by him, after deducting all allotments made by him and all orders for controlled material placed by him pursuant to the same allotment, or unless he is expressly authorized to place such an order by any applicable regulation or order of NPA.

(g) Authorized controlled materials orders shall take precedence over other orders for controlled materials to the extent provided in CMP Regulation No. 3. A delivery order for controlled materials not covered by an allotment shall not be combined with an authorized controlled material order. However, such orders shall be combined if the total of both does not exceed the minimum mill quantity specified in Schedule IV of this regulation, provided that the controlled materials involved are not procurable from a distributor. Where such orders are combined, the portion covered by allotment must be specifically identified by the appropriate allotment number and such delivery order must contain the certification provided in paragraph (c) of this section.

#### CONTROLLED MATERIALS PRODUCERS

**SEC. 20. Rules applicable to controlled materials producers.** (a) Each controlled materials producer shall comply with such production and other directives as may be issued from time to time by NPA and with the provisions of all other applicable regulations and orders of NPA regarding production and delivery of controlled materials.

(b) Each controlled materials producer shall accept all (1) authorized controlled material orders, (2) orders which he is required to accept pursuant to any regulation or order of NPA, and (3) orders which he is required to accept pursuant to NPA directive.

(c) A controlled materials producer shall be required to accept orders for controlled materials in conformity with the provisions of this regulation, as the same is or may be modified by the provisions of NPA Order M-1 (steel), NPA Order M-5 (aluminum), NPA Order M-6 (steel), NPA Order M-6A (steel), NPA Order M-11 (copper), NPA Order M-82 (copper), NPA Order M-86 (copper), NPA Order M-88 (aluminum), and NPA Order M-89 (steel, copper, and aluminum), and the directions thereto, or of any other applicable regulation or order of NPA, as the same may be issued or amended from time to time. In no event shall a controlled materials producer accept an authorized controlled material order which calls for delivery in a quarter other than the quarter for which the related allotment is valid.

(d) A controlled materials producer may reject orders in the following cases, but he shall not discriminate between customers in rejecting or accepting such orders:

(1) If the order is one for less than the minimum mill quantity specified in Schedule IV of this regulation.

(2) If the person seeking to place the order is unwilling or unable to meet such producer's regularly established prices and terms of sale or payment.

(e) In any case where a controlled materials producer is of the opinion that the filling of an order which he is required to accept pursuant to this section would substantially reduce his over-all production owing to the large or small size of the order, unusual specifications, or otherwise, he shall notify the appropriate Controlled Materials Division setting forth the pertinent facts. NPA may direct that the order be placed with another supplier or take other appropriate action.

(f) A controlled materials producer shall make shipment on each authorized controlled material order as close to the requested delivery date as is practicable. He may make shipment during the 15 days prior to the requested delivery month, but not before then, provided such shipment does not interfere with shipment on other authorized controlled material orders, and provided production to meet such shipment would not violate any production directive. If a producer, after accepting an order within the limits provided in this section, finds that, due to contingencies which he could not reasonably have foreseen, he is obliged to postpone the shipment date, he must promptly advise his customer of the approximate date when shipment can be scheduled, and keep his customer advised of any changes in that date. Shipment of any such carry-over order must be scheduled and made in preference to any order originally scheduled for such later date. When the shipment of a carry-over order is made after the first 7

days of the fourth calendar quarter of 1951 with respect to an original delivery order for the third calendar quarter of 1951, or after the first 15 days of any calendar quarter subsequent to the fourth calendar quarter of 1951 with respect to an original delivery order for the immediately preceding calendar quarter, the customer must charge the order against his allotment for the quarter in which the carry-over shipment is made and promptly make the necessary adjustments in his outstanding orders placed for such following quarter.

(g) If a controlled materials producer takes controlled materials which he has produced and processes them into a form other than a controlled materials form, or if he uses controlled materials which he has produced to make a product or a material other than a controlled material, such processing or use shall be considered a delivery for the purposes of this section.

(h) If the controlled material delivered pursuant to an authorized controlled material order varies from the exact amount specified in such order, the making and acceptance of such delivery shall not be deemed a violation of this regulation by the controlled materials producer or his customer, provided such variation does not exceed the commercially recognized shipping tolerance, or allowance for excess or shortage.

(i) An authorized controlled material order shall not constitute an allotment of controlled material to the controlled materials producer with whom it is placed. If a controlled materials producer requires delivery of controlled materials from other controlled materials producers, to be processed by him and sold to his customers in another form or shape constituting a controlled material, such delivery may be made or accepted only pursuant to a specific instruction of NPA, or pursuant to allotment as provided in section 21 of this regulation.

**SEC. 21. Production requirements of controlled materials producers.** This section provides the procedures under which controlled materials producers may obtain production materials required in the production of controlled materials. For the purposes of this section, "production material" means, with respect to any controlled materials producer, any material (including controlled material) or product which will be physically incorporated into his product, and includes the portion of such material normally consumed or converted into scrap in the course of processing. It includes containers and packaging materials required to make delivery of the materials he produces, and also chemicals used directly in the production of the materials he produces. It does not include any items purchased by him as manufacturing equipment, or for maintenance, repair, or operating supplies as defined in CMP Regulation No. 5.

(a) Except in those cases handled by directives pursuant to section 20 (a) of this regulation, if a controlled materials

producer requires delivery, after June 30, 1951, of controlled materials or of Class A products to be incorporated in a controlled material produced by him, he may apply for an allotment on Form CMP-4B or such other form as may be prescribed for the purpose. Such applications shall be sent to the Controlled Materials Division charged with supervision over the operations of the controlled materials producer, even if a different controlled material is involved.

(b) Allotments will be made to controlled materials producers applying under paragraph (a) of this section in the manner provided in section 10 of this regulation, except that in lieu of authorized production schedules, the controlled materials producer will receive from his Controlled Materials Division production instructions or authorizations. Controlled materials producers who have received allotments pursuant to this paragraph may place authorized controlled material orders in accordance with the provisions of section 19 of this regulation.

(c) The self-authorization procedure by which a controlled materials producer obtains production materials (other than controlled materials) is described in Direction 2 to this regulation.

#### GENERAL PROVISIONS

**SEC. 22. Applicability of other regulations and orders.** Nothing in this regulation shall be construed to relieve any person from complying with all other applicable regulations and orders of NPA. In case compliance by any person with the provisions of any such regulation or order would prevent fulfillment of an authorized production schedule, he shall immediately report the matter to the appropriate Industry Division, and to the Claimant Agency whose schedule is affected. NPA will thereupon take such action as is deemed appropriate, but unless and until otherwise expressly authorized or directed by NPA, such person shall comply with the provisions of such regulation or order.

**SEC. 23. Records and reports.** (a) Each consumer making or receiving any allotment of controlled materials shall maintain at his regular place of business accurate records of all allotments received, of procurement pursuant to all allotments, and of the subdivision of all allotments among his direct secondary consumers. Such records shall be kept separately by allotment numbers, pursuant to section 11 of this regulation, and shall include separate entries under each number for each customer, Claimant Agency, or Industry Division from whom allotments are received under such number, except as otherwise specifically provided in this regulation.

(b) Each consumer and each controlled materials producer shall retain for at least 2 years at his regular place of business all documents on which he relies as entitling him to make or receive an allotment or to deliver or accept delivery of controlled materials or Class A products, segregated and available for inspection by representatives of NPA, or Claimant Agencies authorized by NPA, or filed in such manner that they can be

readily segregated and made available for such inspection.

(c) The provisions of this regulation do not require any particular accounting method, provided the records maintained supply the information specified by this regulation and furnish an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(d) Persons subject to this regulation shall maintain such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

**SEC. 24. Applications for adjustment or exception.** (a) Any person subject to any provision of this regulation, or any other regulation, order, direction, or other action under the Controlled Materials Plan, may file a request for adjustment, exception, or other relief upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests claiming that the public interest is prejudiced, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing submitted in triplicate, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

(b) A producer of Class A products making a large variety of items which are sold to many customers and whose allotments originate from several customers or Claimant Agencies, may file a request to be treated as a producer of Class B products. Such request shall be in writing submitted in triplicate, shall set forth all pertinent facts, and shall state the justification therefor.

**SEC. 25. Communications.** All communications concerning this regulation, except as otherwise specified in this regulation, shall be addressed to the National Production Authority, Washington 25, D. C., Ref: CMP Regulation No. 1.

**SEC. 26. Violations.** Any person who wilfully violates any provision of this regulation or any other regulation or order of the National Production Authority, or who wilfully conceals a material fact or furnishes false information in the course of operation under this regulation, is guilty of a crime and, upon conviction, may be punished by fine or imprisonment, or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

**NOTE:** All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This regulation as amended shall take effect on November 23, 1951.

**NATIONAL PRODUCTION

**INSTRUCTIONS FOR USE OF SHORT FORM OF ALLOTMENT—FORM CMP-5**

The above short form of allotment may be used by any consumer who has received an allotment for the purpose of making an allotment to a secondary consumer producing Class A products for him. The short form of allotment must be either placed on or physically attached to the delivery order calling for delivery of the Class A products. If it is attached, the delivery order number or other identification must be indicated on the form.

<sup>11</sup> "Stainless steel castings" means any steel casting which is heat- corrosion- or abrasion-resistant, containing 8 percent or more of chromium with or without nickel, molybdenum, or other alloying elements.

<sup>12</sup> Includes anodes—rolled or forged.

<sup>13</sup> "Copper-base alloy" means any alloy in the composition of which the percentage of copper metal equals or exceeds 40 percent by weight of the metallic content of the alloy. It does not include alloyed gold produced in accordance with U. S. Commercial Standard CS 67-38.

The form must be signed by an authorized official of the consumer making the allotment, but need not be separately signed if it is placed on the delivery order in such a position that the signature of the delivery order by such an authorized official clearly applies to the allotment as well as to the order itself.

The size of the form may be varied, but all information called for by the form must be supplied and the general arrangement and wording of the form must be followed.

<sup>14</sup> Cast copper and copper-base alloy shapes or forms suitable for ultimate use without remelting, rolling, drawing, extruding, or forging. (The process of casting includes the removal of gates, risers, and sprues, and sandblasting, tumbling, and dipping, but does not include any further machining or processing. For centrifugal castings the process includes the removal of the rough cut in the inner and/or outer diameter before delivery to a customer). Castings include anodes cast in a foundry or by an ingot maker.

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation No. 1, Direction 1, as Amended November 23, 1951]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

DIR. 1—PROCEDURE FOR OBTAINING MINIMUM QUANTITIES OF MATERIALS BY PRODUCERS OF CLASS B PRODUCTS

This amended direction under CMP Regulation No. 1 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this

direction as amended, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

This amendment affects Direction 1 to CMP Regulation No. 1 by amending section 2. As so amended CMP Regulation No. 1, Direction 1, reads as follows:

Sec.

1. What this direction does.

2. Persons affected by this direction.

3. Use of allotment symbol to obtain controlled materials.

4. Use of rating to obtain production materials other than controlled materials.

5. Certification.

**AUTHORITY:** Sections 1 to 5 issued under sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789.

**SECTION 1. What this direction does.** This direction constitutes a determination by the National Production Authority that producers of Class B products may receive priority assistance under CMP without submitting applications on Form CMP-4B if their total requirements of controlled materials do not exceed a certain maximum. It also establishes a procedure whereby such producers may place authorized controlled material orders for such materials without obtaining an allotment. Such producers shall be subject to all CMP regulations and orders.

**SEC. 2. Persons affected by this direction.** (a) A producer of any Class B product which is listed in the "Official CMP Class B Product List" may obtain priority assistance without submitting an application on Form CMP-4B with respect to such product for any calendar quarter, through the first calendar quarter of 1952, in which his total requirements for delivery from suppliers of each kind of controlled material for the production of that product and all other products in the same product class do not exceed the amounts specified below:

Carbon steel (including wrought iron).....	5 tons.
Alloy steel (except stainless steel).....	½ ton.
Stainless steel.....	none.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.....	500 pounds.
Aluminum.....	500 pounds.

(b) A producer of any Class B product which is listed in the "Official CMP Class B Product List" may obtain priority assistance without submitting an application on Form CMP-4B with respect to such product for any calendar quarter, beginning with the second calendar quarter of 1952, in which his total requirements for delivery from suppliers of each kind of controlled material for the production of that product and all other products in the same product class do not exceed the amounts specified below:

Carbon steel (including wrought iron).....	30 tons.
Alloy steel (except stainless steel).....	8 tons
Stainless steel.....	1,500 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.....	3,000 pounds.
Aluminum.....	2,000 pounds.

Such a producer shall not submit an application on Form CMP-4B. If such a producer has received advance allotments for the second or succeeding calendar quarters of 1952 pursuant to application or applications previously submitted for production of such B prod-

uct and others in the same product class, and has placed authorized controlled material orders pursuant to such allotments, he must reduce the foregoing self-authorization quantities to the extent of orders so placed.

(c) The term "product class" as used in this section means a Product Class Code as shown in the "Official CMP Class B Product List."

**SEC. 3. Use of allotment symbol to obtain controlled materials.** Any producer of Class B products who, pursuant to this direction, may obtain priority assistance without filing a Form CMP-4B, is authorized to use the allotment symbol SU on delivery orders for controlled materials within the limits set forth in section 2 of this direction. An order so designated, when certified as provided in section 5 of this direction, shall constitute an authorized controlled material order. The quantity of such Class B products which may be produced with controlled materials obtained with the use of the allotment symbol SU plus controlled materials properly contained in inventory shall constitute an authorized production schedule for the purpose of all CMP regulations.

**SEC. 4. Use of rating to obtain production materials other than controlled materials.** Any producer of Class B products who, pursuant to this direction, may obtain priority assistance without filing a Form CMP-4B, is authorized to use the rating DO-SU on delivery orders for production materials as defined in CMP Regulation No. 3 in accordance with the provisions of that regulation.

**SEC. 5. Certification.** Every delivery order placed under the provisions hereof shall contain, in the case of an order for controlled materials, the certification required by section 19 of CMP Regulation No. 1, or, in the case of an order for production materials other than controlled materials, the certification required by section 6 of CMP Regulation No. 3.

This direction as amended shall take effect on November 23, 1951.

[NPA Order M-9, Amtd. 1]

**M-9—DISTRIBUTION OF ZINC**

This amendment to NPA Order M-9, dated July 5, 1951, is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950, as amended. In the formulation of the amendment of this order consultation with industry representatives has been rendered impracticable due to the necessity for immediate action and by reason of the fact that the order affects a large number of different trades and industries.

This amendment affects NPA Order M-9 as follows: The definitions of "producer" and of "slab zinc" have been revised. The small quantity exemption in paragraph (c) of section 5 has been changed. Sections 6 and 8 have been amended. Paragraphs (a) and (d) of section 9 have been amended and a new paragraph (f) added. Section 12 has been amended.

NPA Order M-9 is hereby amended in the following respects:

1. Paragraph (b) of section 3 shall be deleted and the following substituted therefor:

(b) "Producer" means any person who produces slab zinc from ores and concentrates, scrap, dross, or other primary or secondary material.

2. Paragraph (d) of section 3 shall be deleted and the following substituted therefor:

(d) "Slab zinc" means zinc metal in specifications corresponding to the grades generally known in the trade as special high grade, high grade, intermediate, brass special, prime western, or remelt; in pigs, slabs, bars, anodes, or other shapes resulting from the first pouring or casting by a producer.

3. Paragraph (c) of section 5 shall be deleted and the following substituted therefor:

(c) Acceptance of slab zinc by any person (1) whose total receipts during the month in which acceptance occurs

are, or by such acceptance would become, not in excess of 10 short tons, (2) who has not applied to the National Production Authority for an allocation authorization for such month, and (3) who furnishes to the supplier a certification signed as provided in section 8 of NPA Reg. 2 in substantially the following form:

Certified under the small-lot exemption provisions of NPA Order M-9.

Such certification constitutes a representation to the supplier and to the National Production Authority that the purchaser is authorized to accept delivery of the slab zinc pursuant to this paragraph, and that such slab zinc will be used in accordance with the provisions of NPA Order M-15.

4. Section 6 shall be deleted and the following substituted therefor:

SEC. 6. *Delivery of slab zinc.* No person shall deliver slab zinc to any person if he knows or has reason to believe that the person requesting delivery is not permitted to receive it under this order or that it will be used in violation of NPA Order M-15 or any other applicable regulation or order of the National Production Authority.

5. Section 8 shall be deleted and the following substituted therefor:

SEC. 8. *Assistance in placing orders.* Any person who has received an allocation authorization for slab zinc and who, after exploring all domestic commercial sources, is unable to place an order for the material covered by the authorization, should apply to the National Production Authority, Ref.: M-9, specifying the persons who refused to accept his order. The National Production Authority will arrange to assist him in locating sources of supply.

6. Paragraph (a) of section 9 shall be deleted and the following substituted therefor:

(a) Any producer of slab zinc who by the tenth day of any month has not received orders for the entire quantity of slab zinc scheduled for production by him in that month shall promptly report to the National Production Authority by telephone or telegram the quantity and grade of slab zinc available in that month, for which he has not received orders.

7. Paragraph (d) of section 9 shall be deleted and the following substituted therefor:

(d) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies

instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

8. A new paragraph (f) shall be added to section 9 as follows:

(f) Persons subject to this order shall make such records and submit such other reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

9. The following sentences shall be inserted in place of the second sentence in section 10: "In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor."

10. Section 12 shall be deleted and the following inserted in place thereof:

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

(Sec. 704, 64 Stat. 816, Pub. Law 96, 82d Cong.; 50 U. S. C. App. Sup. 2154)

NPA Order M-9, as so amended, shall take effect on January 1, 1952. Until such date, NPA Order M-9 issued July 5, 1951, shall remain in full force and effect.

Issued November 23, 1951.

(b) Add an amount equal to 2.4 times the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of the cheese known as "Twins" at Chicago as reported by the Department during the delivery period;

(ii) From the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period, deduct 6 cents, multiply the resulting sum by 1.2, and multiply that result by 3.5; and add the result of the following: From the simple average of the weighted averages of carlot prices per pound for nonfat dry milk solids,

spray and roller process, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month, deduct 6½ cents, multiply the result by 8.2 and multiply that result by 0.965: *Provided*, That if such f. o. b. manufacturing plant prices for nonfat dry milk solids are not reported, there shall be used for the purpose of such computation the average of carlot prices for nonfat dry milk solids for human consumption, both spray and roller process, delivered at Chicago as reported by the Department during the delivery period; and in the latter event 8½ cents shall be used in lieu of the 6½ cent deduction in arriving at the computation.

2. In § 912.5 delete paragraph (b) (3) and substitute therefor the following:

(3) *Class III milk*. From the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the Department during the delivery period in which the milk was received, subtract 6 cents, multiply the result by 1.20 and divide the result by 10.

Special Order 4, Amdt. 1]

PALM BEACH CO.

#### CEILING PRICES AT RETAIL

*Statement of considerations.* Special Order 4 under section 43 of Ceiling Price Regulation 7 established ceiling prices for sales at retail of men's and boys' tailored clothing manufactured by the Palm Beach Co., having the brand names "Palm Beach," "Lighterway," "Palm Springs," "Springweave," "Sunfrost," "Resortweave," and "Heathersheen."

Thereafter, the Palm Beach Co. filed an application to amend the special order by substituting new selling prices for certain of its own selling prices and new ceiling prices at retail corresponding to these new selling prices. The applicant also requests that several new price lines be added to the special order.

It appears that under Ceiling Price Regulation 45 the applicant may legally sell the items covered by the special order at the selling prices which it has listed and that the new ceiling prices at retail requested are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The retail ceiling prices for some of its branded articles are fixed in relation to costs falling within specified cost brackets. Such cost brackets in place of cost lines for certain of the price lines will allow for minor changes in cost without influencing the general level of retail prices for the articles covered by the special order.

In addition, this amendment adds the brand names "Good-all-Year" and "Palm Beach Luxury Lined" to the special order.

*Amendatory provisions.* Special Order 4 under Ceiling Price Regulation 7, section 43, is amended in the following respects:

1. Delete paragraph 1 of the special order and substitute therefor the following:

1. The following ceiling prices are established for sales by any seller at retail of men's and boys' tailored clothing manufactured by the Palm Beach Co. having the brand names "Palm Beach," "Lighterway," "Palm Springs," "Springweave," "Sunfrost," "Resortweave," "Heathersheen," "Good-all-Year," and "Palm Beach Luxury Lined," and described in the manufacturer's application dated March 7, 1951, as supplemented and amended by the manufacturer's application dated September 4, 1951. On and after the date of receipt of a copy of this special order but in no event later than thirty days after the effective date of the order, no seller at

retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order.

The manufacturer's prices listed below are subject to terms of 2/10 Net 30:

JULIUS KAYSER & Co.

#### CEILING PRICES AT RETAIL

*Statement of considerations.* This amendment to Special Order 188, issued

under section 43 of Ceiling Price Regulation 7, to Julius Kayser & Co., extends the date by which the applicant was required to mark or tag its branded articles. The extension is granted on applicant's demonstration of its inability to preticket in the manner set forth in the special order by the date specified.

**Amendatory provisions.** Special Order 188 under Ceiling Price Regulation 7, section 43, is amended in the following respects: 1. In paragraph 3, substitute for the date "October 22, 1951," the date "December 31, 1951."

2. In paragraph 3, substitute for the date "November 22, 1951," wherever it appears, the date "January 30, 1952."

C. F. HATHAWAY Co.

#### CEILING PRICES AT RETAIL

**Statement of considerations.** Special Order 231 under section 43 of Ceiling Price Regulation 7, issued on August 3, 1951, established ceiling prices for sales at retail of men's dress and sport shirts manufactured by C. F. Hathaway Co., having the brand name "Hathaway." The applicant inadvertently omitted the brand name "Logan" from the application dated June 6, 1951. The amendment, therefore adds the brand name "Logan" to the brand names included in the special order.

In addition, the applicant has applied to the Office of Price Stabilization for the exclusion of the state of Florida from the operation of the special order. The applicant points out that the original application for a special order omitted to state that a percentage of the applicant's sales were made in the state of Florida where the articles covered by the special order were never sold at uniform retail prices due to the seasonal character of sales in that area.

The exclusion of a limited area from the operation of a special order conforms with the provisions of section 43, Ceiling Price Regulation 7.

**Amendatory provisions.** Special Order 231 under Ceiling Price Regulation 7, section 43 is amended in the following respects:

1. In paragraph 1, delete the first sentence and substitute therefor the following:

The following ceiling prices are established for sales after the effective date of this special order by any seller at retail of men's dress and sport shirts manufactured by C. F. Hathaway Co., Waterville, Maine, having the brand names "Hathaway" and "Logan" and described in the manufacturer's application dated June 6, 1951, as corrected by its amended application dated September 25, 1951.

2. Delete paragraph 8 from the special order and substitute therefor the following:

8. The provisions of this special order are applicable to the District of Columbia and the United States with the exception of the state of Florida.

**Effective date.** This amendment shall become effective November 19, 1951.

AUGUSTA BEDDING Co.

#### CEILING PRICES AT RETAIL

**Statement of considerations.** Special Order 277 under section 43 of Ceiling Price Regulation 7 established ceiling prices for sales at retail of mattresses, box and coil springs manufactured by the Augusta Bedding Company.

Thereafter, the Augusta Bedding Company filed an application to amend the special order by substituting new selling prices for certain of its own selling prices and new ceiling prices at retail corresponding to the new selling prices. It appears that the applicant may legally sell the items covered by the special order at the selling prices for which it has applied and that the requested ceiling prices at retail are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

In its application Augusta Bedding Company also seeks to have uniform retail ceiling prices for some of its branded articles fixed in relation to costs falling within specified cost brackets. Bracket costs in place of cost lines for each particular price line will allow for minor changes in cost without affecting the general level of prices under Ceiling Price Regulation 7. This method of stating costs is partly undertaken because of regulations which allow for fluctuating costs to the retailer.

In addition, this amendment lists the manufacturers' selling prices and the retail ceiling prices which were established by the special order but which were not listed in the special order.

**Amendatory provisions.** Special Order 277 under Ceiling Price Regulation 7, section 43, is amended in the following respects:

1. Delete paragraph 1 and substitute therefor the following:

1. The following ceiling prices are established for sales after the effective date of this amendment by any seller at retail of mattresses, box and coil springs manufactured by the Augusta Bedding Company having the brand names "Serta," "Coilux," "Relax," "Ajax," "Leader," "Rex," "Star," and "Atlas," and described in the manufacturer's application dated March 20, 1951, as supplemented and amended in the manufacturer's applications dated April

18, 1951 and August 15, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. Sales may, of course, be made at less than these ceiling prices. The manufacturer's prices listed below are subject to terms of 2 percent—30, net 60 days.

Manufacturer's selling price (per unit):	Ceiling price at retail (per unit)

\$98.00 less \$5 promotional fee	179.50

Mattress and box spring having the product name "Serta Perfect Sleeper" in the manufacturer's application dated April 17, 1951, so long as it has a manufacturer's selling price of \$32.75 less promotional fee of \$1.00 per unit, shall have a ceiling price at retail of \$59.50 per unit, and the manufacturer's selling price shall carry terms of 2 percent—30, net 60 days.

Mattress and foundation having the product name "Sertaform Sleep Set" in the manufacturer's application dated April 17, 1951, so long as it has a manufacturer's selling price at \$86.75 less promotional fee of \$3.00 per set, shall have a ceiling price at retail of \$149.50 per set, and the manufacturer's selling price shall carry terms of 2%—30, net 60 days.

2. Delete paragraph 4 of the special order and substitute therefor the following:

4. Within 15 days after the effective date of this special order, the manufacturer shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the manufacturer had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto issued prior to the date of delivery.

Within 15 days after the effective date of any subsequent amendment to this special order the manufacturer shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the manufacturer had delivered any article the sale of which is affected in any manner by the amendment.

BLACKWELL MATTRESS CO.

#### CEILING PRICES AT RETAIL

**Statement of considerations.** Special Order 688 under section 43 of Ceiling Price Regulation 7 established ceiling prices for sales at retail of mattresses and box springs manufactured by Blackwell Mattress Company having the brand names "Spring Air," "Princess," "King Cotton," "Victor," "Special," and "Xit."

This amendment to Special Order 688, issued under section 43 of Ceiling Price Regulation 7 to Blackwell Mattress Company, reduces several of the manufacturer's selling prices and lowers the cor-

responding retail ceiling prices for articles for which ceiling prices at retail were established by the special order. The retail ceiling prices for some of the manufacturer's branded articles are fixed in relation to costs falling within specified cost brackets. Such cost brackets in place of cost lines for certain of the price lines will allow for minor changes in cost without influencing the general level of retail prices for the articles covered by the special order.

The Director has determined, on the basis of information available to him, that the retail ceiling prices requested are in line with those already granted and are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

In addition, this amendment lists the manufacturer's selling prices and the retail ceiling prices for the articles which were established by the special order but which were not listed in the special order.

**Amendatory provisions.** Special Order 688 under Ceiling Price Regulation 7, section 43, is amended in the following respects:

1. Delete paragraph 2 of the special order and substitute therefor the following:

2. **Retail ceiling prices for listed articles.** Your ceiling prices for sales at retail of the articles identified in paragraph 1 are listed below. These ceiling prices are effective on receipt of a copy of this order, but in no event after 30 days after the effective date of this order. You may, of course, sell below these prices. The manufacturer's prices listed below are subject to terms of 2 percent 10 days, net 30 days, F. O. B. Lubbock, Texas.

[Ceiling Price Regulation 7, Section 43,  
Special Order 732]

FISHER, BRUCE & CO.

#### CEILING PRICES AT RETAIL

**Statement of considerations.** In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, Fisher, Bruce & Co., 219-221 Market Street, Philadelphia 6, Pa., hereafter called wholesaler has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

This special order, designed to meet the particular requirements of the Chinaware industry, accomplishes the objective of notifying consumers of the uniform prices fixed under the order. The preticketing method established by this special order is necessary because the articles covered by the special order are characteristically not adaptable to the usual preticketing method.

The special order contains provisions requiring each article on display to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant is required to send purchasers of the articles a copy of this special order, a notice listing retail ceiling prices for each cost

line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Price Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

**Special provisions.** For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. The ceiling prices for sales at retail of Chinaware sold at wholesale by Fisher, Bruce & Co., 219-221 Market St., Philadelphia 6, Pa., having the brand name "Lamberton" shall be the proposed retail ceiling prices listed by the Fisher, Bruce & Co., in its application dated September 14, 1951, and filed with the Office of Price Stabilization, Washington 25, D. C. A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with a notice of prices annexed, but in no event later than December 17, 1951, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may, of course, be made at less than the ceiling prices.

2. The retail ceiling price of an article fixed by paragraph 1 of this special order shall apply to any other article of the same type which is otherwise priceable under Ceiling Price Regulation 7 by retailers subject to that regulation, having the same selling price and terms of sale to the retailers, the same brand or company name and first sold by the wholesaler after the effective date of this special order.

3. On and after December 17, 1951, Fisher, Bruce & Co. must furnish each purchaser for resale to whom within two months immediately prior to the effective date the wholesaler had delivered any article covered by paragraph 1 of this special order, with a sign 8 inches wide and 10 inches high, a price book and a supply of tags and stickers. Such a sign, a price book, and a supply of tags and stickers shall also be sent, on or before the date of the first delivery of an article covered by paragraph 1 of this special order, subsequent to the effective date of this special order. The sign must contain the following legend:

The retail ceiling prices for the Fisher, Bruce & Co. Chinaware have been approved by OPS and are shown in a price book we have available for your inspection.

The price book must contain an accurate description of each article covered by paragraph 1 of this special order and the retail ceiling price fixed for each article. The front cover of the price book must contain the following legend:

The retail ceiling prices in this Fisher, Bruce & Co. price book have been approved by OPS under Section 43, CPR 7.

No. 228—5

The tags and stickers must be in the following form:

Fisher, Bruce & Co.  
OPS—Sec. 43—CPR 7  
Price \$-----

On and after January 16, 1952, no retailer may offer or sell any article covered by this order unless he has the sign described above displayed so that it may be easily seen and a copy of the price book described above available for immediate inspection. Prior to January 16, 1952, unless the retailer has received the sign described above and has it displayed so that it may be easily seen, and a copy of the price book described above available for immediate inspection, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order. In addition, the retailer must affix to each article covered by the order and which is offered for sale on open display (except in show windows or decorative displays) a tag or sticker described above. The tag or stickers must contain the retail ceiling price established by this special order for the article to which it is affixed.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the wholesaler's application or changes the retail ceiling price of a listed article, the applicant named in this special order must within 30 days after the effective date of the amendment, as to each such article, send an insertion stating the required addition or change for the price book described above. After 60 days from the effective date of the amendment, no retailer may offer or sell the article, unless he has received the insertion described above and inserted it in the price book. Prior to the expiration of the 60 day period, unless the retailer has received and placed the insertion in the price book, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

4. Within 15 days after the effective date of this special order, the wholesaler shall send a copy of this special order to each purchaser for resale to whom, within two months immediately prior to the effective date, the wholesaler had delivered any article covered in paragraph 1 of this special order. Copies shall also be sent to all other purchasers on or before the date of the first delivery of any such article subsequent to the effective date of this special order, and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. The wholesaler shall annex to the special order a notice, listing the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling price fixed by this special order for an article of that cost. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Our price to retailers	Retailer's ceilings for articles of cost listed in column 1
\$----- per-----	unit. net. dozen. Terms percent EOM., etc. etc.
	\$-----

Within 15 days after the effective date of this special order, two copies of this notice must also be filed by the wholesaler with the Distribution Price Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C. Within 15 days after the effective date of any subsequent amendment to this special order, the wholesaler shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the wholesaler had delivered any article the sale of which is affected in any manner by the amendment.

5. Within 45 days of the expiration of the first six-month period following the effective date of this special order and within 45 days of the expiration of each successive six-month period, the wholesaler shall file with the Distribution Price Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that six-month period.

6. The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

7. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

8. The provisions of this special order are applicable to the United States and the District of Columbia.

**Effective date.** This order shall become effective November 17, 1951.

Director of Price Stabilization.

Special Order 733]

INTERNATIONAL SHOE CO.  
CEILING PRICES AT RETAIL

**Statement of considerations.** This is an order establishing uniform retail prices issued upon the basis of an application filed by a supplier under section 43 of CPR 7. This section gives a manufacturer or wholesaler the right to apply for uniform retail ceiling prices for certain of his branded articles. This section requires that the articles must customarily have been sold at substantially uniform prices, and the ceiling prices applied for must not raise the general level of prices under CPR 7. The order

may, of course, be amended or revoked if further review shows that the requirements of the regulation have not been fully met.

This special order requires each article to be tagged or marked with the retail ceiling price. The supplier must send to each retailer a copy of this special order, as well as a list of ceiling prices for each article or cost line and notice of all amendments. The order requires the supplier to file certain sales reports with OPS.

Retailers will be concerned with sections 1 through 6 of this special order which contain provisions applying to them. The rest of the order is of interest primarily to the applicant.

**Order.** For the reasons set forth in the Statement of Considerations and pursuant to section 43 of CPR 7, it is ordered that the following provisions be in effect:

**Provisions for retailers.** 1. *What this order does.* Sections 1 through 6 apply to you and establish uniform ceiling prices if you sell at retail the articles identified below:

Whenever you receive one of applicant's branded articles which is in the same category and which has the same net cost as one covered by the list, the ceiling price for such article shall be the same as the ceiling price for the article having that same net cost.

4. *Retail ceiling prices affected by amendment to this order.* This order may be amended from time to time or it may be revoked. If so, the applicant is required to send you a copy of the revocation or amendment, together with any list of changes or additions in retail ceiling prices. 5. *Marking and tagging.* This order requires your supplier to pre-ticket his articles by an early date. The label, tag or ticket must be in the following form:

OPS—Sec. 43—CPR 7

After 90 days from the effective date of this order, unless you receive articles marked or tagged in this form, you must so mark or tag them yourself. Before that date you must mark, tag or post your prices in the manner required by the regulation which applies in the absence of this special order.

With respect to articles the ceiling prices of which are affected by any amendment to this order, the same rules apply except that you must mark or tag such articles as stated above not later than 60 days after the effective date of the amendment.

6. *Applicability.* This special order establishes your ceiling prices for the articles covered by it regardless of whether you would otherwise price the articles under CPR 7 or any other regulation. It applies to sales in the 48 states and the District of Columbia.

[Ceiling Price Regulation 7, Section 43,  
Special Order 736]

JACOB SIEGEL CO.

CEILING PRICES AT RETAIL

*Statement of considerations.* This is an order establishing uniform retail prices issued upon the basis of an application filed by a supplier under section 43 of CPR 7. This section gives a manufac-

turer or wholesaler the right to apply for uniform retail ceiling prices for certain of his branded articles. This section requires that the articles must customarily have been sold at substantially uniform prices, and the ceiling prices applied for must not raise the general level of prices under CPR 7. The order may, of course, be amended or revoked if further review shows that the requirements of the regulation have not been fully met.

This special order requires each article to be tagged or marked with the retail ceiling price. The supplier must send to each retailer a copy of this special order, as well as a list of ceiling prices for each article or cost line and notice of all amendments. The order requires the supplier to file certain sales reports with OPS.

Retailers will be concerned with sections 1 through 6 of this special order which contain provisions applying to them. The rest of the order is of interest primarily to the applicant.

*Order.* For the reasons set forth in the Statement of Considerations and pursuant to section 43 of CPR 7, it is ordered that the following provisions be in effect:

*Provisions for retailers—1. What this order does.* Sections 1 through 6 apply to you and establish uniform ceiling prices if you sell at retail the articles identified below:

Name and address of applicant: Jacob Siegel Company, 317 North Broad Street, Philadelphia 7, Pennsylvania.

Brand name: "Alpacuna."

Articles: Overcoats and topcoats.

2. *Retail ceiling prices for listed articles.* Your ceiling prices for sales at retail of the articles identified above are the retail prices listed in your supplier's application filed with OPS. These prices will be included in a list which will be annexed to the copy of this order which you will receive from your supplier. The list of ceiling prices will be filed with the Federal Register as an appendix to this special order as soon as practicable. These ceiling prices are effective 10 days after you receive this order and the ceiling price list but in no event later than 60 days after the date this order is issued. You shall not sell above the ceiling prices. You may, of course, sell below these prices.

3. *Retail ceiling prices for unlisted items.* Some or all of the retail ceiling prices in this order are fixed in terms of the cost of the article to you. Whenever you receive one of applicant's branded articles which is in the same category and which has the same net cost as one covered by the list, the ceiling price for such article shall be the same as the ceiling price for the article having that same net cost.

4. *Retail ceiling prices affected by amendment to this order.* This order may be amended from time to time or it may be revoked. If so, the applicant is required to send you a copy of the revocation or amendment, together with any list of changes or additions in retail ceiling prices. The ceiling prices contained in any such amendment become your ceiling prices.

5. *Marking and tagging.* This order requires your supplier to pre-ticket his

articles by an early date. The label, tag or ticket must be in the following form:

OPS—Sec. 43—CPR 7

Price \$-----

After 90 days from the effective date of this order, unless you receive articles marked or tagged in this form, you must so mark or tag them yourself. Before that date you must mark, tag or post your prices in the manner required by the regulation which applies in the absence of this special order.

With respect to articles the ceiling prices of which are affected by any amendment to this order, the same rules apply except that you must mark or tag such articles as stated above not later than 60 days after the effective date of the amendment.

6. *Applicability.* This special order establishes your ceiling prices for the articles covered by it regardless of whether you would otherwise price the articles under CPR 7 or any other regulation. It applies to sales in the 48 states and the District of Columbia.

*Provisions for the applicant—7. Notification to retailers.* As the manufacturer or wholesaler to whom this special order is issued, you shall do the following:

(a) *Sending order and list to old customers.* Within 15 days after the effective date of this special order, you shall send a copy of this order, together with a copy of the list referred to in section 8 below to each purchaser for resale to whom, within 2 months immediately prior to the effective date, you had delivered any article covered by this order.

(b) *Notification to new customers.* A copy of this special order and the list shall be sent to all other purchasers for resale on or before the date of the first delivery of any article covered by this order.

(c) *Notification with respect to amendments.* Within 15 days after the effective date of any subsequent amendment to this order, you shall send a copy of the amendment to each purchaser to whom, within 2 months immediately prior to the effective date of such amendment, you had delivered any article included in such amendment. Within 15 days after any amendment, the amendment shall also be included with the notification to new customers.

(d) *Notification to OPS.* Within 15 days of the effective date of this order, you shall send a copy of the list of prices referred to in section 8 below to the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C.

8. *Ceiling Price list.* The ceiling price list must be annexed to a copy of the order and shall contain the cost and discount terms to retailers for each article covered by this special order and the corresponding retail ceiling prices fixed by the order. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Price to retailers	Retailer's ceilings for articles of cost listed in column 1
\$..... per..... unit, dozen, etc.	[net, percent EOM, etc.] Terms \$.....

9. *Pre-ticketing requirements.* As the applicant to whom this special order is issued, you must, within 60 days after the effective date of this order (or in the case of an amendment within 60 days after the effective date of that amendment), mark each article covered by this order with a statement in the following form:

OPS—Sec. 43—CPR 7

Price \$-----

Instead of marking the article you may attach a label, tag or ticket containing the same information.

10. *Sales volume reports.* Within 45 days of the expiration of the first 6-month period following the effective date of this special order and within 45 days of the expiration of each successive 6-month period, you shall file with the Distribution Branch, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which you have delivered in that 6-month period.

This special order may be amended or revoked at any time.

[Ceiling Price Regulation 7, Section 43,  
Special Order 738]

JOHN OSTER MFG. CO.

#### CEILING PRICES AT RETAIL

*Statement of considerations.* In accordance with section 43 of Ceiling Price Regulation 7, the applicant named in the accompanying special order, John Oster Manufacturing Company, 1 Main Street, Racine, Wisconsin, has applied to the Office of Price Stabilization for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this section and has produced evidence which in the judgment of the Director indicates that the applicant has complied with other stated requirements.

The Director has determined on the basis of information available to him, including the data and certified conclusions of fact submitted by the applicant, that the retail ceiling prices requested and which are established by this special order are no higher than the level of ceiling prices under Ceiling Price Regulation 7.

The special order contains provisions requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying special order. The applicant and intermediate distributors are required to send purchasers of the article a copy of this special order, a notice listing retail ceiling prices for each cost line and, in specified cases, of subsequent amendments of this special order.

The special order also requires applicant to file with the Distribution Branch regular reports setting forth the number of units of each article covered by this special order which applicant has delivered during the reporting period. This requirement conforms with the provisions of section 43, Ceiling Price Regulation 7.

*Special provisions.* For the reasons set forth in the statement of considerations and pursuant to section 43 of Ceiling Price Regulation 7, this special order is hereby issued.

1. *Ceiling prices.* The ceiling prices for sales at retail of electrical hair dryers, mixers, massage machines, hair clippers, knife sharpeners, and liquefier-blenders sold through wholesalers and retailers and having the brand name(s) "Oster" and "Race" shall be the proposed retail ceiling prices listed by John Oster Manufacturing Company, 1 Main Street, Racine, Wisconsin, hereinafter referred to as the "applicant" in its application dated October 2, 1951 and filed with the Office of Price Stabilization,

Washington 25, D. C. (and supplemented and amended in the manufacturer's application dated October 9, 1951).

A list of such ceiling prices will be filed by the Office of Price Stabilization with the Federal Register as an appendix to this special order as soon as practicable. On and after the date of receipt of a copy of this special order, with notice of prices annexed, but in no event later than January 19, 1952, no seller at retail may offer or sell any article covered by this special order at a price higher than the ceiling price established by this special order. Sales may be made, of course, at less than the ceiling prices.

2. *Marking and tagging.* On and after January 19, 1952, John Oster Manufacturing Company must mark each article for which a ceiling price has been established in paragraph 1 of this special order with the retail ceiling price under this special order or attach to the article a label, tag, or ticket stating the retail ceiling price. This mark or statement must be in the following form:

OPS—Sec. 43—CPR 7  
Price \$.....

On and after February 18, 1952, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to February 18, 1952, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

Upon issuance of any amendment to this special order which either adds an article to those already listed in the application or changes the retail ceiling price of a listed article, the applicant named in this special order must comply as to each such article with the pre-ticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the sixty-day period, unless the article is so ticketed, the retailer must comply with the marking, tagging, and posting provisions of the regulation which would apply in the absence of this special order.

3. *Notification to resellers.* (a) *Notices to be given by applicant.* (1) After receipt of this special order, a copy of this special order and the notice described below shall be sent by the applicant to each purchaser for resale on or before the date of the first delivery of any article covered in paragraph 1 of this special order.

(2) Within 15 days after the effective date of this special order, the applicant shall send a copy of this special order and the notice described below to each purchaser for resale to whom within two months immediately prior to the receipt of this special order the applicant had delivered any article covered by paragraph 1 of this special order.

(3) The applicant must notify each purchaser for resale of any amendment to this special order in the same manner, annexing to the amendment an appropriate notice as described below.

(4) The applicant shall annex to this special order or amendment a notice listing the style or lot number, name, or other description of each item covered by this special order or amendment and its corresponding retail ceiling price. The notice shall be in substantially the following form:

(Column 1)	(Column 2)
Item (style or lot number or other description)	Retailer's ceiling price for articles listed in column 1
-----	\$-----

(5) Within 15 days after the effective date of this special order or any amendment thereto, two copies of the ceiling price notice above described must be filed by the applicant with the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C.

(6) The applicant must supply each purchaser for resale other than a retailer with sufficient copies of this special order, amendment and notices to permit such purchasers for resale to comply with the notification requirements of this special order.

(b) *Notices to be given by purchasers for resale (other than retailers).* (1) A copy of this special order, together with the annexed notice of ceiling prices described in subparagraph (a) (4) of this section, shall be sent by each purchaser for resale (other than retailers) to each of his purchasers on or before the date of the first delivery after receipt of a copy of this special order.

(2) Within 15 days of receipt of this special order and the annexed notice, each purchaser for resale (other than retailers) shall send a copy of the order and notice to each of his purchasers to whom, within two months prior to receipt of this special order, his records indicate he had delivered any article covered by paragraph 1 of this special order.

(3) Each purchaser for resale (other than retailers) must notify each purchaser of any amendment to this special order in the same manner, annexing to the amendment an appropriate notice as described above.

4. *Reports.* Within 45 days of the expiration of the first six-month period following the effective date of this special order and within 45 days of the expiration of each successive six-month period, the applicant shall file with the Distribution Branch, Consumer Soft Goods Division, Office of Price Stabilization, Washington 25, D. C., a report setting forth the number of units of each article covered by this special order which he has delivered in that six-month period.

5. *Other regulations affected.* The provisions of this special order establish the ceiling price for sales at retail of the articles covered by it, regardless of whether the retailer is otherwise subject to Ceiling Price Regulation 7 or any other regulation.

6. *Revocation.* This special order or any provisions thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

7. *Applicability.* The provisions of this special order are applicable in the United States and the District of Columbia.

*Effective date.* This special order shall become effective November 20, 1951.

[General Ceiling Price Regulation, Supp.  
Reg. 45, Special Order 1]

KNICKERBOCKER ICE CO.

#### REQUEST FOR ADJUSTMENT OF CEILING PRICES

American Ice Company, d/b/a Knickerbocker Ice Company, 43-17 Dreyer Avenue, Long Island City 1, New York.

*Statement of considerations.* American Ice Company, d/b/a Knickerbocker Ice Company (hereinafter called "applicant"), has applied to the Office of Price Stabilization pursuant to General Ceiling Price Regulation, Supplementary Regulation 45 for an adjustment of its ceiling prices and the ceiling prices of resellers for sales of various types of ice.

Applicant has submitted the information required by section 3 of the regulation which in the judgment of the Director establishes that it is eligible for an adjustment.

On the basis of the information submitted, it appears that applicant manufactures various types of ice for sale to consumers and to peddlers and dealers in the New York City area. It further

appears that applicant has been operating at a loss with respect to its ice manufacturing operations, that the loss is attributable to the level of its existing ceiling prices, established for applicant in Letter Order No. GCPR-SR-45-II-1 by Region 2, that the adjusted ceiling prices specified below will not be substantially out of line with the ceiling prices established for other sellers of ice in the New York City area, and that if such adjusted prices are charged its operations, based upon 1950 volume, will yield a profit on sales.

In the judgment of the Director, adjustment of the ceiling prices of resellers of ice purchased from applicant is necessary, corresponding to the adjustment in applicant's ceiling prices established herein and this order therefore permits resellers to increase their ceiling prices for ice purchased from applicant by the dollars-and-cents increase in cost to them resulting from increases charged by applicant under this order.

Paragraph 6 of this order requires applicant to supply a copy of this special order to each reseller to whom applicant sells ice.

*Special provisions.* For the reasons set forth in the Statement of Considerations and pursuant to section 4 of Supplementary Regulation 45 to the General Ceiling Price Regulation, this special order is issued:

1. The pricing provisions of the letter order, Docket No. GCPR-SR-45-II-1, dated September 10, 1951, issued by Region 2, Office of Price Stabilization are hereby revoked and the new ceiling prices for sales of ice by applicant in the New York City area shall be computed as follows:

Type of sale	Price
Commercial trade delivery:	
Sales of 200-1,500 pounds per week.....	\$0.57 per hundredweight.
Sales of 1,500 pounds to truck lots.....	\$0.45 per hundredweight.
Wholesale trade (peddlers and dealers at platform).....	\$1.05 per 300-pound cake.
Iceing railroad cars.....	\$0.67 per 300-pound cake.
Crushed ice (delivered).....	\$0.53 per hundredweight.
Ice cubes at platform.....	\$0.35 per 40-pound tub.
Ice cubes delivered.....	\$0.50 per 40-pound tub.

Applicant shall apply its customary differentials to the above prices. This means that to determine its ceiling price to any one purchaser, applicant shall add to or subtract from the above prices the applicable dollars-and-cents differential between the highest price it charged that purchaser during the period December 19, 1950, to January 25, 1951, inclusive, for that commodity, and the price which it listed as its General Ceiling Price Regulation price for that commodity prior to the issuance of SR-45, as shown in the detailed list of prices, dated October 1, 1951, submitted in support of its application; for example, the October list of prices designates applicant's GCPR price prior to the issuance of SR-45 for ice cubes at platform as 30 cents per 40-pound tub, but it sold to some purchasers at \$1 per tub and others at 25 cents per tub. Its ceiling price for ice cubes at platform is, under this order, 35 cents per 40-pound tub to those persons to whom it delivered at 30 cents per tub in the base period, 30 cents per tub to those to whom it delivered at 25 cents

per tub in the base period, and \$1.05 per 40-pound tub to those persons to whom it delivered at \$1.00 per tub during the base period.

Applicant shall also prepare invoices for each sale of ice showing the name and address of customer, and quantity, price and type of ice sold. It shall preserve and keep available for inspection by the Director of Price Stabilization for a period of two years a copy of each of these invoices.

2. Applicant's unadjusted ceiling prices under the General Ceiling Price Regulation shall apply to all types of ice sales other than those specified above.

3. Peddlers and dealers, and any other resellers of ice purchased from applicant may pass on the dollars-and-cents amount of increase in costs to them of ice purchased from applicant due to increase in ceiling prices allowed by this order.

4. Applicant is required to maintain the terms of delivery and discounts which it had during the period Decem-

ber 19, 1950, to January 25, 1951, inclusive.

5. This special order or any provision thereof may be revoked, suspended, or amended by the Director of Price Stabilization at any time.

6. Applicant shall deliver a copy of this special order to each reseller to whom it sells ice, such delivery to be made in each case with or prior to the first delivery of ice to the reseller at a price higher than its ceiling price in effect prior to the effective date of this order.

*Effective date.* This special order shall become effective November 23, 1951.

EDWARD F. PHELPS, Jr.,  
Acting Director of  
Price Stabilization.

#### DOMINICAN REPUBLIC BROADCAST STATIONS

#### LIST OF CHANGES, PROPOSED CHANGES, AND CORRECTIONS IN ASSIGNMENTS

OCTOBER 25, 1951.

Notifications under the provisions of Part III, section 2, of the North American Regional Broadcasting Agreement. List of changes, proposed changes, and corrections in assignments of Dominican Republic Broadcast Stations modifying appendix containing assignments of Dominican Republic Broadcast Stations (mimeograph 47214-2) attached to the recommendations of the North American Regional Broadcasting Agreement Engineering Meeting, January 30, 1941.

packing requirements, and inspection policies. This shall include the establishment of methods and procedures to effectively and efficiently utilize and coordinate the inspection and testing services and facilities of the military and civil agencies.

2. These purposes will be achieved principally by the development and promulgation of Federal and Military Specifications and Standards. For the purpose of this agreement, the following terms are defined and will be included in the Glossary of Supply Terms for General Usage in Government Agencies.

a. *Specification.* A clear and accurate description of the technical requirements for a material, a product, or service, including the procedure by which it will be determined that the requirements have been met.

The scope of this definition embraces documents used in invitations for bids, proposals and contracts to describe and establish the technical and physical characteristics or performance requirements of specific materials, products, or services, including the packaging and packing, marking or other essential characteristics or requirements, together with the prescribed methods of inspection and testing for determining that these requirements are met by suppliers. When required, specifications shall include appropriate qualification tests.

b. *Standards.* Documents, which may be used in invitations for bids, proposals

and contracts, that establish engineering and technical limitations and applications for materials, processes, methods, designs, drafting room and other engineering practices or any related criteria deemed essential to achieve the highest practical degree of uniformity in materials or products, or interchangeability of parts used in those products.

c. *Packaging.* Means preparing an item or material for delivery, including such steps as disassembly, cleaning, preservation, interior packaging, packing and marking. This involves the application or use of adequate protective measures to prevent deterioration resulting from exposure to atmospheric conditions during storage and shipment; the application or use of appropriate wrappings, cushioning, interior containers, and complete identification of interior packages; and the application or use of exterior shipping containers and assembling of item or packages therein, together with any necessary blocking, bracing, or cushioning, weatherproofing, exterior strapping, and marking of the shipping container.

d. *Inspection.* Means the examination and testing by the Government of material (including, when appropriate, raw materials, components and intermediate assemblies, and services) to determine whether or not the material conforms with the requirements of the contract, purchase order, or other procurement instrument, and all applicable drawings, specifications, and purchase descriptions. Testing means determining by scientific measurement or analysis the physical or chemical properties or elements of a sample of material, requiring not only the services of persons possessing certain technical knowledge, but also requiring special appliances such as laboratory equipment to ascertain conformance with requirements of specifications and standards.

3. A Federal or Military Specification or Standard will not be prepared when it is not in the best interest of the Government to do so. Instances where such a determination may be economically sound occur when the volume of procurement is not sufficient to justify the preparation of a specification or standard; when the character of the item is of minor significance and purchasing offers no problems; or for spare parts, components, or materials required for repair or maintenance of existing equipment; or for similar items required for maintenance and operation of existing facilities or installations.

4. The exceptions outlined in paragraph 3 may be described in proposals or contracts by use of a purchase description, providing it adequately specifies all of the essential requirements of the item or items. When the product cannot be adequately described due to its technically involved construction or composition, the name of one or more commercial products may be used, followed by the words "or equal", so as not to limit competition to the particular make or makes specified. Such references to manufacturers' brand names and numbers are intended to be descriptive, but not restrictive, and are for the sole purpose of indicating to prospective

bidders the requirements that must be met.

5. As soon as practicable there will be established in the Government the following specifications and standards to be designated and issued for the purposes indicated below:

a. *Federal Specifications.* To cover those materials, products, or services used by at least two Federal agencies (at least one of which is civilian), or new items of general application, and shall be mandatory for use by all Federal agencies. Unless circumstances warrant otherwise, Federal Specifications should be initially issued as Interim Federal Specifications and as such shall be mandatory for use by the specific agency or agencies indicated in the preamble to the specification. Such specifications shall be optional for use by other Federal agencies.

Unless otherwise directed by the Administrator of General Services, Interim Federal Specifications shall be submitted immediately after issuance to interested Federal agencies for coordination. Interim Federal Specifications shall become Federal Specifications not later than one year from date of issue, and then be mandatory for use of all Federal agencies subject to such regulations as the Administrator of General Services may prescribe, unless the information resulting from the coordination indicates that they should be revised, cancelled, superseded, reissued, or extended for a specified time as determined by General Services Administration.

Interim Federal Specifications will also cover those items or products predominantly used by one agency and which may be used or are of concern to the supply program of another Federal agency. Existing departmental specifications of probable use to more than one Federal agency (at least one of which is a civilian agency) will be converted to Federal or Interim Federal Specifications as quickly as possible. In the future all such specifications shall be developed by Federal agencies for issuance as Interim Federal Specifications by the General Services Administration.

b. *Military Specifications.* To cover those materials, products, or services used solely or predominantly by Military activities, and which will be mandatory for these activities, but which may be used by other Federal agencies. In order to provide for immediate and urgent procurement requirements, the series of Military Specifications shall include Interim Military Specifications. Coordinated Military Specifications and Interim Military Specifications shall be developed and prepared for items not appropriate as Federal or Interim Federal Specifications.

c. *Federal Standards.* To cover engineering and related practices and shall be mandatory for use by all Federal activities. As applicable, Interim Federal Standards may be authorized. They will be prepared and used subject to the same conditions as Interim Federal Specifications.

d. *Military Standards.* To cover engineering and related practices and shall be mandatory for use of all Military ac-

tivities. As applicable, Interim Military Standards may be authorized.

6. When specifications or standards of similar application which are practically duplicates are in the process of development in both the General Services Administration and the Department of Defense, in the interest of standardization and economy, only a Federal Specification or Federal Standard will be developed, unless otherwise agreed to by the Standards Division, Federal Supply Service, and the Munitions Board Standards Agency.

7. Proposals for Standards or Specifications for items of common use among the civilian and Military activities shall be processed initially as Federal documents in either interim or coordinated form, and shall be approved and issued by the General Services Administration.

8. The Munitions Board Standards Agency will have primary responsibility in the Department of Defense for administering the coordination of all matters affecting Federal Specifications and Standards.

9. Nationally recognized industry and technical society standards and specifications shall be used to the maximum extent practicable in the development of Federal and Military Specifications and Standards. Normally, this will be done by adopting by reference or by transcription from such industry and technical society standards or portions thereof, and issuing the result as coordinated or Interim Federal or Military Specifications or Standards, without deviation unless the exception can be justified. When the requirements are essentially similar to those contained in a nationally recognized standard, an appropriate note to this effect should be included in the specification or standard.

10. There will be maintained by the General Services Administration an Index of Federal Specifications and Standards, and, by the Department of Defense, an Index of Military Specifications and Standards. These indexes shall be available for sale by the Superintendent of Documents.

11. Wherever applicable Military Qualified Products Lists, except those having a security classification ("Restricted" or higher), will be made available to the General Services Administration and, at its discretion, to other Federal agencies. In each such case, arrangements will be made between the General Services Administration, in coordination with the Munitions Board Standards Agency, and the Military department responsible for the administration of the particular Qualified Products List.

12. The General Services Administration and the Department of Defense will develop and coordinate their packaging programs with the objectives of establishing packaging requirements to meet the varying needs of Federal agencies, for domestic and export shipment, and of developing standard unit quantity packs for an item which is frequently handled.

13. The General Services Administration and the Department of Defense shall develop and place into effect policies and procedures for the efficient utilization and coordination of the inspection and

testing facilities and services of Federal agencies.

14. In order to utilize, to the maximum extent practicable, existing Government inspection services and testing facilities, the General Services Administration and the Department of Defense shall coordinate inspection and testing activities with a view toward achieving an economical and efficient inspection system.

15. The General Services Administration shall inspect and test, or arrange therefor through inspection and testing interchange agreements, materials purchased by the General Services Administration. The Military departments of the Department of Defense will inspect and test, or arrange therefor through inspection and testing interchange agreements, materials which they purchase.

16. Inspection shall be made in accordance with the terms of the contract, purchase order, or other procurement instrument, and in accordance with any special inspection requirements for particular items or products prescribed by the procuring agency, subject to such policies and methods as may be prescribed from time to time, by the Administrator of General Services after cooperative development and agreement with the Department of Defense.

17. The General Services Administration and the Department of Defense shall adopt the policy that the type and extent of inspection shall be such as to fully protect the interests of the Government, is proper under the terms of the contract, and has due regard to the circumstances, including the monetary value and functional importance of the items or products. Standard sampling techniques and statistical quality control procedures should be fully developed and utilized.

18. To achieve uniformity in the methods, procedures, and techniques in the inspection and testing activities of the Government, the General Services Administration and the Department of Defense shall develop inspection manuals, instruction pamphlets and other aids to achieve these objectives.

19. To facilitate efficient utilization and effective coordination, the General Services Administration has surveyed and will from time to time resurvey existing Government facilities and make available to all Federal agencies a Directory of Inspection Service and Testing Facilities of the Federal Government.

20. The Administrator of General Services shall prescribe methods and procedures for the enforcement of the mandatory use of Federal Specifications and Federal Standards, and for the coordination of packaging and inspection policies, procedures, and activities in the civilian agencies. The Secretary of Defense shall prescribe methods and procedures for the enforcement of the mandatory use of Military Specifications and Military Standards, and for the coordination of military packaging and inspection policies, procedures and activities.

21. The General Services Administration and the Department of Defense shall establish and maintain relationships with approved industry groups as re-

quired in order to coordinate the development of specifications, standards, packaging requirements and inspection procedures with the best practices of industry and to obtain to the greatest extent practicable the cooperation and participation of industry in the program.

22. The General Services Administration and the Department of Defense shall modify existing plans and programs as necessary in order to achieve the objectives of this agreement. In modifying plans and programs, action will be taken to establish procedures that will provide for a system of priorities for completion of projects.

23. The Director, Standards Division, Federal Supply Service, and the Director, Supply Management Agencies, Munitions Board, have reached a supplemental agreement under the date of November 6, 1951, based upon the principles agreed upon herein. This supplemental agreement establishes the working responsibilities and functions; includes provisions for the issuance of Federal, Interim Federal, Military and Interim Military Specifications as well as Federal and Military Standards; and covers general arrangements to achieve efficient materials inspection operations. NEW ENGLAND GAS AND ELECTRIC ASSN.  
ET AL.NOTICE OF FILING OF PROPOSED SALE TO  
PARENT COMPANY BY SUBSIDIARY OF AD-  
DITIONAL COMMON STOCK, PURCHASE FOR  
THAT AMOUNT BY SUCH SUBSIDIARY OF  
ALL NET ASSETS OF TWO ASSOCIATE COM-  
PANIES AND DISSOLUTION OF ASSOCIATES

NOVEMBER 19, 1951.

In the matter of New England Gas and Electric Association, Worcester Gas Light Company, Dedham and Hyde Park Gas Company, and Milford Gas Light Company; File No. 70-2735.

Notice is hereby given that Worcester Gas Light Company ("Worcester Gas"), Dedham and Hyde Park Gas Company ("Dedham Gas"), Milford Gas Light Company ("Milford Gas") and their parent, New England Gas and Electric Association ("NEGEA"), a registered holding company which owns all of the outstanding capital stocks of the three subsidiaries mentioned, have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") and have designated sections 6, 9, 10 and 12 of the act and Rule U-50 (a) (1) as applicable to the proposed transactions which are summarized as follows:

Worcester Gas proposes to purchase and Dedham Gas and Milford Gas propose to sell all of the assets of Dedham Gas and Milford Gas (subject to their liabilities other than capital stock) in consideration of cash payments of \$1,015,000 and \$159,800, respectively, or an aggregate of \$1,174,800. Worcester Gas proposes to finance such acquisitions by the issuance and sale to Negea of 46,992 additional shares of its \$25 par value common stock for \$1,174,800. Dedham Gas and Milford Gas each proposes to distribute the proceeds of the sales in liquidation and dissolve.

NEGEA, which carries its investments in Dedham Gas and Milford Gas at the related net asset value thereof as at December 31, 1946, plus subsequent investments at cost, proposes, in effect, to transfer the amount of its investments in such companies to its investment in Worcester Gas.

The facilities of Dedham Gas and Milford Gas are connected with those of Worcester Gas and the two former companies purchase virtually all their requirements of manufactured gas from Worcester Gas. The filing states that the proposed acquisition and consequent ownership of the properties by a single company will facilitate the most efficient operation thereof when natural gas becomes available in the territories involved.

The filing also states that no regulatory body other than this Commission has jurisdiction over the transactions proposed by NEGEA and, with respect to the other transactions proposed, that no other Federal commission or any State commission, other than the Department

of Public Utilities of Massachusetts, which has issued an order approving Worcester's proposed issuance and sale of stock and purchases of assets, has jurisdiction over such other transactions. It is represented that the total expenses in connection with the proposed transactions are estimated at approximately \$3,200, including legal fees of about \$300. The filing requests that the Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than November 28, 1951, at 5:30 p. m., request, in writing, that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after November 28, 1951, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided by Rule U-23 of the Rules and Regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

BROAD STREET INVESTING CORP.

NOTICE OF APPLICATION TO WITHDRAW  
FROM LISTING AND REGISTRATION, AND OF  
OPPORTUNITY FOR HEARING

NOVEMBER 19, 1951.

Broad Street Investing Corporation, registered as a diversified open-end management investment company under section 8 (a) of the Investment Company Act of 1940, has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to withdraw its \$5 Par Value Capital Stock from registration and listing on the Board of Trade of the City of Chicago.

The application alleges the following reasons for withdrawing this security from registration and listing on the Board of Trade of the City of Chicago:

(1) Continuance of the listing of these shares of Capital Stock on the Board of Trade of the City of Chicago is deemed to be inadvisable because of the lack of trading in these shares on this exchange, due to existing restrictive provisions of the Investment Company Act of 1940 and the rules of the National Association of Securities Dealers.

(2) The foregoing provisions and regulations make improbable the possibility of any future increase in the exchange trading in these shares.

(3) The Board of Trade of the City of Chicago has advised the issuer of the above security that this exchange has no objection to the withdrawal of the

above security from registration and listing on this exchange.

Upon receipt of a request, prior to December 13, 1951, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.
